Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to revise the Current Population Survey—Basic Labor Force information collection. The labor force data collected in the Current Population Survey (CPS) help to determine the employment situation of specific population groups as well as general trends in employment and unemployment. The survey is the only source of monthly data on total employment and unemployment. The *Employment Situation* report contains data from this survey and is designated a Principle Federal Economic Indicator; moreover, the survey also yields data on the basic status and characteristics of persons not in the labor force. CPS data are used monthly, in conjunction with data from other sources, to analyze the extent to which, and with what success, the various components of the American population are participating in the economic life of the nation. This ICR has been classified as a revision, because the CPS sample has been redesigned based on information from the 2010 decennial census, in accordance with usual practice.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0100. The current approval is scheduled to expire on June 30, 2014; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 4, 2013 (77 FR 61868).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0100. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Notice of Availability of Funds and Solicitation for Grant Applications for the Workforce Data Quality Initiative

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice of Solicitation for Grant Applications (SGA).

Funding Opportunity Number: SGA/DFA PY-13-05

SUMMARY: The Employment and Training Administration (ETA), U.S. Department of Labor, announces the availability of approximately \$6 million for grants to State Workforce Agencies (SWA) to develop the Workforce Data Quality Initiative (WDQI).

Grants awarded will provide SWAs the opportunity to develop or expand State workforce longitudinal administrative data systems. These State longitudinal data systems will, at a minimum, include information on programs that provide training, employment services, and unemployment insurance; connect with education data contained in Statewide Longitudinal Data Systems (SLDS) databases; be linked longitudinally at the individual level to allow for enhanced opportunity for evaluation of federally and State-supported education and workforce programs; be capable of generating workforce training provider performance information and outcomes in a standardized, easy to understand format (e.g. scorecards), consistent with all applicable Federal and State privacy laws; and lead to better information for customers and stakeholders of the workforce system. Where such longitudinal systems do not exist or are in early development, WDQI grant assistance may be used to design and develop these systems. WDQI grant assistance can also be used to improve upon existing State longitudinal systems. Current WDQI grant recipients who did not receive a Round III award under solicitation SGA-DFA PY-12-07 and states that currently do not have a WDQI grant are eligible for this competition.

The complete SGA and any subsequent SGA amendments in connection with this solicitation are described in further detail on ETA's Web site at <http://www.doleta.gov/grants/> or on <http://www.grants.gov>. The Web sites provide application information, eligibility requirements, review and selection procedures, and other program requirements governing this solicitation.

DATES: The closing date for receipt of applications under this announcement is March 25, 2014. Applications must be received no later than 4:00:00 p.m. Eastern Time.

FOR FURTHER INFORMATION CONTACT: Linda Forman, 200 Constitution Avenue NW., Room N-4716, Washington, DC 20210; Telephone: 202-693-3416.

Signed January 16, 2014 in Washington, DC.

Polyone Designed Structures and Solutions LLC, a Subsidiary of Polyone Corporation, Donora, Pennsylvania; Notice of Affirmative Determination Regarding Application for Reconsideration

By application dated December 2, 2013, Teamsters Local No. 205 requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of Polyone Designed Structures and Solutions LLC, a subsidiary of Polyone Corporation, Donora, Pennsylvania (subject firm). The determination was issued on November 5, 2013. The Department's Notice of determination was published in the **Federal Register** on November 26, 2013 (78 FR 70581-70583). Workers at the subject firm were engaged in activities related to the production of color additives and inks.

The negative determination was based on the Department's findings that with respect to Section 222(a)(2)(A)(ii) of the Act, imports of articles like or directly competitive with color additives and inks have not increased in 2011, 2012 or during the period of January through September 2013.

With respect to Section 222(a)(2)(B) of the Act, the investigation revealed that the firm has not shifted the production of articles like or directly competitive with color additives and inks to a foreign country or acquired like or directly competitive articles from a foreign country. Rather, the investigation confirmed that production is being shifted from the Donora, Pennsylvania facility to other facilities within the United States.

With respect to Section 222(b)(2) of the Act, the investigation revealed that the firm is not a Supplier or Downstream Producer to a firm that employed a group of workers who received a certification of eligibility under Section 222(a) of the Act, 19 U.S.C. 2272(a).

Finally, the group eligibility requirements under Section 222(e) of the Act have not been satisfied because the workers' firm has not been publicly identified by name by the International Trade Commission as a member of a domestic industry in an investigation resulting in an affirmative finding of serious injury, market disruption, or material injury, or threat thereof.

The request for reconsideration alleges that there is "additional evidence of the anticipated shift/transfer of equipment and operations to a foreign country". The request for reconsideration also alleges that production has shifted to Mexico and China. The request for reconsideration also includes additional attachments, including documentation of products that are allegedly produced in Mexico.

The Department has carefully reviewed the request for reconsideration and the existing record, and will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974, as amended.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 10th day of January, 2014.

Michael W. Jaffe,

Certifying Officer, Office of Trade Adjustment Assistance.
