

certifies, that this regulatory document will not have a significant impact on the operations of a substantial number of small rural hospitals.

Section 202 of the Unfunded Mandates Reform Act of 1995 also requires that agencies assess anticipated costs and benefits before issuing any rule whose mandates require spending in any 1 year of \$100 million in 1995 dollars, updated annually for inflation. In 2022, that threshold is approximately \$165 million. This regulatory document will have no consequential effect on State, local, or tribal governments or on the private sector.

Executive Order 13132 establishes certain requirements that an agency must meet when it promulgates a proposed rule (and subsequent final rule or other regulatory document) that imposes substantial direct requirement costs on State and local governments, preempts State law, or otherwise has Federalism implications. Since this regulatory document does not impose any costs on State or local governments, the requirements of Executive Order 13132 are not applicable.

In accordance with the provisions of Executive Order 12866, this document was reviewed by the Office of Management and Budget.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 22-376; RM-11934; DA 23-20; FR ID 122718]

Television Broadcasting Services Norwell, Massachusetts

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: On October 27, 2022, the Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking (NPRM)* in response to a petition for

rulemaking filed by RNN Boston License Co., LLC (Petitioner), the licensee of WWMD (Station), channel 10, Norwell, Massachusetts, requesting the substitution of channel 36 for channel 10 at Norwell in the Table of TV Allotments. For the reasons set forth in the *Report and Order* referenced below, the Bureau amends FCC regulations to substitute channel 36 for channel 10 at Norwell.

DATES: Effective January 17, 2023.

Joyce Bernstein, Media Bureau, at (202) 418-1647 or Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 87 FR 68432 on November 15, 2022. The Petitioner filed comments in support of the petition reaffirming its commitment to apply for channel 36. No other comments were filed.

The Bureau believes the public interest would be served by substituting channel 36 for channel 10 at Norwell, Massachusetts. The Station has received many complaints from viewers unable to receive a reliable signal on VHF channel 10, and the Petitioner further states that the Commission has recognized the deleterious effects manmade noise has on the reception of digital VHF signals, and that the propagation characteristics of these channels allow undesired signals and noise to be receivable at relatively farther distances compared to UHF channels, and nearby electrical devices can cause interference. An analysis conducted using the Commission's *TVStudy* software tool indicates that WWDP's proposed channel substitution is predicted to create areas where viewers may lose service. However, the Bureau believes any possible harm resulting from the loss of service to some viewers is outweighed by the overall benefit of improving reception to the Station's viewers, including in the Station's community of license. Moreover, the viewers in the loss area are already well-served by five or more stations and no viewers will lose service from one of the four major networks or any noncommercial educational station. As the Petitioner points out, the Commission is generally most concerned where there is a loss of an area's only network or noncommercial educational TV service, or where the loss results in an area becoming less than well-served, *i.e.*, served by fewer than five full-power stations.

This is a synopsis of the Commission's *Report and Order*, MB Docket No. 22-376; RM-11934; DA 23-20, adopted January 9, 2023, and released January 9, 2023. The full text

Memphis, Tennessee****AGENCY:** Federal Communications Commission.**ACTION:** Final rule.

SUMMARY: On April 5, 2022, the Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking (NPRM)* in response to a petition for rulemaking filed by Gray Television Licensee, LLC (Petitioner or Gray), the licensee of WMC-TV (Station or WMC-TV), channel 5, Memphis, Tennessee, requesting the substitution of channel 30 for channel 5 at Memphis in the Table of TV Allotments. For the reasons set forth in the *Report and Order* referenced below, the Bureau amends FCC regulations to substitute channel 30 for channel 5 at Memphis.

DATES: Effective January 17, 2023.**FOR FURTHER INFORMATION CONTACT:** Joyce Bernstein, Media Bureau, at (202) 418-1647 or Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 87 FR 22166 on April 14, 2022. The Petitioner filed comments in support of the petition reaffirming its commitment to apply for channel 30. No other comments were filed.

The Bureau believes the public interest would be served by substituting channel 30 for channel 5 at Memphis, Tennessee. The proposed channel substitution will resolve significant over-the-air reception problems in WMC-TV's service area due to its operation on a low VHF channel, reception problems which the Commission has recognized can exist on VHF channels. An analysis using the Commission's *TVStudy* software tool indicates that WMC-TV's move from channel 5 to channel 30 is predicted to create an area where 4,072 persons may lose service. The loss area, however, is largely overlapped by the noise limited contours of other NBC affiliated stations and most viewers will continue to receive service from five or more stations. In addition, the Petitioner acquired three LPTV stations and constructed modified facilities to deliver NBC programming to viewers in the loss area. As a result, only 64

persons would either (1) no longer receive NBC network programming or (2) no longer receive service from five or more full power television services. In practice, Gray expects that few, if any, persons who are currently able to receive WMC-TV's over-the-air signal on channel 5 would no longer be able to receive WMC-TV's over-the-air signal as a result of the Station's transition to channel 30. Although the Petitioner's proposal would result in a loss for a limited number of viewers, the Bureau finds that the overall benefits of the proposed channel change outweighs any possible harm to the public interest when taking into account the ability of all but a *de minimis* number of viewers to access NBC programming from another source.
