BILLING CODE 6335-01-P

DEPARTMENT OF COMMERCE

[Docket No. 150720624-5624-01]

Privacy Act of 1974, New System of Records

AGENCY: U.S. Department of Commerce, National Oceanic and Atmospheric Administration.

ACTION: Notice of Privacy Act system of records; "COMMERCE/NOAA-23; Economic Data Collection Program for West Coast Groundfish Trawl Catch Share Program off the coast of Washington, Oregon, and California."

SUMMARY: This notice announces the Department of Commerce (Department) proposal for a new system of records under the Privacy Act. NOAA's National Marine Fisheries Service (NMFS), Northwest Fisheries Science Center (NWFSC), is creating a system of records for the mandatory collection of economic data in the West Coast Region consisting of the Economic Data Collection (EDC) for West Coast Groundfish Trawl Catch Share Program. Information will be collected from individuals under the authority of the Magnuson-Stevens Fishery Conservation and Management Act and the American Fisheries Act. This record system is necessary to evaluate information on costs of fishing and processing, revenues for harvesters and processors, and employment information.

DATES: To be considered, written comments must be submitted on or before September 8, 2015. Unless comments are received, the system of records will become effective as proposed on the date of publication of a subsequent notice in the **Federal Register**.

ADDRESSES: Comments may be mailed to Erin Steiner, NOAA Fisheries, Northwest Fisheries Science Center, FRAM Division, 2725 Montlake Boulevard East, Seattle, WA 98112.

SUPPLEMENTARY INFORMATION: This notice announces the Department of Commerce (Department) proposal for a new system of records under the Privacy Act. NMFS' NWFSC is creating a system of records for the EDC for the West Coast Groundfish Trawl Catch Share Program. This record system is necessary to evaluate information on

costs of fishing and processing, revenues for harvesters and processors, and employment information.

Under the EDC, information would be requested from individuals under the authority of the Magnuson-Stevens Fishery Conservation and Management Act and the 50 CFR 660.114. This collection would apply to all owners, lessees, and charterers of a catcher vessel registered to a limited entry trawl endorsed permit, a mothership vessel registered to a mothership permit, or a catcher-processor vessel registered to a catcher-processor-endorsed limited entry trawl permit; owners of a first receiver site license; and owners and lessees of a shorebased processor that received round or headed and gutted individual fishing quota groundfish species or whiting from a first receiver are required to submit an EDC to the NWFSC Economics and Social Science Research Program (ESSR).

The collection of information is necessary to identify participants and their roles in these fisheries and to evaluate the programs in which they participate. NMFS would collect information from individuals in order to evaluate the economic effects of fisheries programs, specifically the effects on the harvesting and processing sectors, and to determine the economic efficiency and distributional effects of the programs.
