## Analysis of Comments Received

A complete discussion of all issues raised in this sunset review, including the likelihood of continuation or recurrence of dumping in the event of revocation of the *Order* and the magnitude of the margins likely to prevail if the *Order* were to be revoked, is provided in the accompanying Issues and Decision Memorandum.<sup>11</sup> A list of the topics discussed in the Issues and Decision Memorandum is attached in the Appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ## Final Results of Sunset Review

Pursuant to sections 751(c)(1), 752(c)(1) and (3) of the Act, Commerce determines that revocation of the *Order* would be likely to lead to continuation or recurrence of dumping, and that the magnitude of the dumping margins likely to prevail would be weighted-average dumping margins up to 262.18 percent.

## Notification Regarding Administrative Protective Orders

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. ### Circular Welded Carbon Steel Pipes and Tubes From Thailand: Final Results of Antidumping Duty Administrative Review; 2023–2024

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The U.S. Department of Commerce (Commerce) determines that circular welded carbon steel pipes and tubes from Thailand were not sold in the United States at less than normal value during the period of review (POR) March 1, 2023, through February 29, 2024.

**DATES:** Applicable July 3, 2025.

**FOR FURTHER INFORMATION CONTACT:** Michael Romani, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-0198.

### SUPPLEMENTARY INFORMATION:

#### Background

On April 3, 2025, Commerce published in the **Federal Register** the preliminary results of the 2023–2024 administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes (CWP) from Thailand.<sup>1</sup> We invited

<sup>1</sup> See *Circular Welded Carbon Steel Pipes and Tubes from Thailand: Preliminary Results and Partial Rescission of Antidumping Duty Administrative Review; 2023–2024*, 90 FR 14608

interested parties to comment on the *Preliminary Results*; however, no interested party submitted comments. Accordingly, the final results of this review remain unchanged from the *Preliminary Results* and no decision memorandum accompanies this notice. Commerce conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

## Scope of the Order

The products covered by this order are circular welded carbon steel pipes and tubes from Thailand. For a complete description of the scope of the order, see the *Preliminary Results*.<sup>2</sup>

## Rate for Non-Examined Company

The Act and Commerce's regulations do not address the establishment of a rate to be applied to companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in a market economy investigation, for guidance when calculating the rate for companies which were not selected for individual examination in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally "an amount equal to the weighted average of the estimated weighted average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins determined entirely {on the basis of facts available}."

In this review, we have calculated a weighted-average dumping margin of zero percent for the sole mandatory respondent Thai Steel Pipe Public Co., Ltd. (Saha Thai). Consistent with the court's decision in *Albemarle*,<sup>3</sup> and Commerce's practice,<sup>4</sup> we assigned the sole non-examined company under review, Thai Premium Pipe Co. Ltd. (TPP), a weighted-average dumping margin of zero percent, based on the rate

(April 3, 2025) (*Preliminary Results*), and accompanying Preliminary Decision Memorandum.
