

might mean for operation during years not covered by the agreement. Rather, the EPA's analysis is based on economic incentives and market conditions, which support that Brunner Island will primarily combust natural gas, consistent with trends in the electric generating industry. The commenter has not provided any information challenging this analysis, and merely speculates on potentially fluctuating market forces and potential motivations behind Brunner Island's agreements. This speculation does not outweigh the EPA's reasoned evidence-based analysis of Brunner Island's likely behavior during the ozone season. Thus, without specific evidence or analysis to the contrary, the EPA has no reason to believe that the evidence provided in either the proposed or final action is inaccurate. The EPA notes that if in fact Brunner Island's operations change such that the facility is operating primarily on coal during future ozone seasons and future emission levels increase significantly, then today's final action denying Connecticut's section 126 petition would not preclude the State from submitting another petition regarding Brunner Island's impacts. The EPA is not, however, pre-determining what action may be appropriate on any such future petition, which would depend upon a variety of factors, including the level of emissions at Brunner Island and future ozone concentrations in Connecticut.

#### IV. Final Action To Deny Connecticut's Section 126(b) Petition

Based on the considerations outlined at proposal, after considering all comments, and for the reasons described in this notice, the EPA is denying the Connecticut's section 126(b) petition regarding the Brunner Island facility in York County, Pennsylvania. The EPA finds that Connecticut has not met its burden to demonstrate that Brunner Island emits or would emit in violation of the good neighbor provision with respect to the 2008 ozone NAAQS. The EPA also finds, based on its own analysis, that there are no additional highly cost-effective controls available at the source and thus no basis at this time to determine that Brunner Island emits or would emit in violation of the good neighbor provision with respect to the 2008 ozone NAAQS.

#### V. Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate regional circuit June 12, 2018. Filing a

petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. *See* CAA section 307(b)(2).

#### Product Cancellation Orders: Certain Pesticide Registrations and Amendments To Terminate Uses; Correction

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; correction.

**SUMMARY:** EPA issued a notice in the *Federal Register* of December 26, 2017, concerning the cancellations and amendments to terminate uses voluntarily requested by the registrants and accepted by the Agency. This document is being issued to correct the cancellation order in Section IV as the entries in Tables 1B were not administered correctly.

**DATES:** The *Federal Register* of October 3, 2017, announcing the request to voluntarily cancel pesticide registrations specified that the cancellations of products listed in Table 1B will be effective December 31, 2020.

**FOR FURTHER INFORMATION CONTACT:** Christopher Green, Information Technology and Resources Management Division (7502P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (703) 347-0367; email address: [green.christopher@epa.gov](mailto:green.christopher@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

##### A. Does this action apply to me?

This action is directed to the public in general. Although this action may be of particular interest to persons who produce or use pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action.

##### B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2017-0466, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

##### II. What does this correction do?

This notice is being issued to correct Section IV of the cancellation notice. This correction changes the cancellation date for the two entries in Table 1B.

FR Doc. 2017-27811 published in the *Federal Register* of December 26, 2017 (80 FR 60985) (FRL-9971-10) is corrected as follows:

On page 60989, in Section IV, correct the cancellation order statement to read:

"The effective date of the cancellations that are subject of this notice is December 26, 2017, for the registrations identified in Table 1A and the effective date of the cancellation that are subject of this notice is December 31, 2020, for the registrations identified in Table 1B. The requests to cancel the registrations identified in Table 1B would terminate the last Spirodiclofen products registered for use in the United States."

#### Mid-Term Evaluation of Greenhouse Gas Emissions Standards for Model Year 2022-2025 Light-Duty Vehicles

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; withdrawal.

**SUMMARY:** In this notice, the Environmental Protection Agency (EPA) Administrator has reconsidered the previous Final Determination of the Mid-term Evaluation of greenhouse gas emission standards for model year

2022-2025 light-duty vehicles. The Administrator determines that the current standards are based on outdated information, and that more recent information suggests that the current standards may be too stringent. The Administrator thus concludes that the standards are not appropriate in light of the record before EPA and, therefore, should be revised as appropriate. EPA is also withdrawing the previous Final Determination issued by the agency on January 12, 2017, with this notice. EPA, in partnership with the National Highway Traffic Safety Administration, will initiate a notice and comment rulemaking in a forthcoming **Federal Register** notice to further consider appropriate standards for model year 2022-2025 light-duty vehicles, as appropriate. On March 22, 2017, EPA published a **Federal Register** notice providing its intention to reconsider the Final Determination of the Mid-term Evaluation of greenhouse gas emissions standards for model year 2022-2025 light-duty vehicles, this notice was published jointly with the Department of Transportation (DOT). On August 21, 2017, EPA and DOT jointly published a **Federal Register** notice providing a 45-day public comment period on the reconsideration and EPA held a public hearing on September 6, 2017.

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

In this notice, the Administrator of the Environmental Protection Agency (EPA) is making a new determination of the Mid-term Evaluation (MTE) of greenhouse gas (GHG) emission standards for model year (MY) 2022-2025 light-duty vehicles. The Administrator determines that the standards are not appropriate in light of the record before EPA, and therefore, should be revised as appropriate. EPA is also withdrawing the January 12, 2017 Final Determination (January 2017 Determination) with this notice. EPA, in partnership with the National Highway Traffic Safety Administration (NHTSA), will initiate a notice and comment rulemaking in a forthcoming **Federal Register** notice to further consider appropriate standards for MY 2022-2025 light-duty vehicles, as appropriate.
