SUPPLEMENTARY INFORMATION: The Final EIS/GMP responds to, and incorporates agency and public comments received on, the Draft EIS, which was available for public review from April 5, 2013, through June 4, 2013. One public meeting was held on April 30, 2013, and a total of 15 comments were received. The NPS responses to substantive agency and public comments are provided in Chapter 5, Consultation and Coordination section, of the Final EIS/GMP.

The Final EIS/GMP evaluates three alternatives for managing use and development of the national monument:

- Alternative A, the No Action alternative represents the continuation of current management action and direction into the future.

- Alternative B, would significantly expand the scope of its partnerships though greater partner involvement in interpretation of the Roanoke Voyages. NPS staff would interpret other stories connected to the national historic site. The NPS would study and evaluate the feasibility of an expanded Waterside Theatre campus in which a partner funded visitor center/indoor theater could be built for interpretation and theatrical education.

- Alternative C, the NPS preferred alternative, would implement Section 3 of Public Law 101-603, November 16, 1990, by increasing emphasis on research related to parkwide interpretive themes and legislative mandates. Fort Raleigh would continue its partnership with the First Colony Foundation, establish partnerships with organizations that focus on natural and cultural resource topics, and include archeology as a significant aspect of the research program at the national historic site.

When approved, the plan will guide the management of the national monument over the next 20+ years.
