

borne out in practice and was not intended by Congress.

Accordingly, because the NPFC claims procedures under 33 U.S.C. 2713 and the implementing regulations at 33 CFR part 136 are internal, informal administrative processes the use of a MCIR in those processes is not precluded by 46 U.S.C. 6308.

The NPFC may consider and rely on any part of a report of a MCIR in determining whether to pay or deny a claim. While any part of such a MCIR may be considered, it is the enclosures to such a report, such as witness statements, navigation records and vessel logs that will most likely bear on any determination to pay or deny a claim. While such reports may be of use to NPFC in this regard, and may also be submitted by claimants to support their claims, the NPFC is not bound by such reports of investigation. The NPFC may require additional information from claimants in order to support their claims and may, considering the record as a whole, find additional facts or different facts than those determined in such reports of investigation.

Dated: October 10, 2006.
