Forest Service

Title: Non-Timber Forest Products Generic for Surveys, Interviews, and Focus Groups.

OMB Control Number: 0596-New.

Summary of Collection: Many laws and policies specifically direct the USDA Forest Service (FS) to consider and manage for non-timber forest products for the benefit of the American public and to meet trust responsibilities to American Indians and Alaskan Natives on federal and tribal lands. Primary authorities to collect information include the Multiple-Use Sustained-Yield Act of 1960 that requires the FS to manage national forests "under principles of multiple use and to produce a sustained yield of products and services." The Forest and Rangeland Renewable Resources Planning Act of 1974 requires the Secretary of Agriculture to "maintain a comprehensive inventory of renewable resources and evaluate opportunities to improve their yield of goods and services. The 2012 Planning Rule specifically requires "consideration of habitat conditions for wildlife, fish, and plants commonly enjoyed and used by the public for hunting, fishing, trapping, gathering, observing, and subsistence" on national forests.

Need and Use of the Information: Surveys, interviews, and focus groups administered under this generic collection will be designed to collect information from individuals and groups who forage for non-timber forest products and from natural resource professionals who manage land where non-timber forest products foraging takes place. Non-timber forest products

harvested for use as food, medicine, and other purposes are plants, mushrooms, and plant- or tree-derived goods like nuts, boughs, sap, and leaves. The FS and other land management agencies will not have a scientific basis for managing non-timber forest product resources and the lands that support them without this information. Also, FS will not have the necessary information to provide technical advice on this issue to other land management agencies and individuals.

Description of Respondents:

Individuals or households; Non-profit organizations and State, Local and Tribal government.

Number of Respondents: 14,250.

Frequency of Responses: Reporting: One time.

Total Burden Hours: 5,613.

Charlene Parker,

Departmental Information Collection Clearance Officer.
