

participation is not feasible or appropriate (§ 10.115(g)(2)) as it provides time-sensitive information to industry about our intent to delay enforcement of the cosmetic product facility registration and product listing requirements under section 607 of the FD&C Act (21 U.S.C. 364c), which become effective on December 29, 2023, for 6 months until July 1, 2024. Although this guidance document is immediately in effect, it remains subject to comment in accordance with FDA's GGP regulation (§ 10.115(g)(5)).

On December 29, 2022, the President signed the Consolidated Appropriations Act, 2023 (Pub. L. 117–328) into law, which included the Modernization of Cosmetics Regulation Act of 2022 (MoCRA). Among other provisions, MoCRA added section 607 to the FD&C Act, establishing requirements for cosmetic product facility registration and product listing. Section 607 of the FD&C Act generally imposes an initial registration and listing deadline of December 29, 2023, for facilities that engaged in manufacturing or processing of a cosmetic product and cosmetic products that were marketed as of December 29, 2022, the date MoCRA was enacted. This guidance announces FDA's intent to delay enforcement of the requirements related to cosmetic product facility registration and cosmetic product listing under section 607 of the FD&C Act related to cosmetic product facility registration and cosmetic product listing until July 1, 2024, to provide regulated industry additional time to comply with these requirements.

FDA issued a draft guidance entitled "Registration and Listing of Cosmetic Product Facilities and Products" on August 8, 2023 (88 FR 53490). The draft guidance, when finalized, will provide recommendations and instructions to assist persons submitting cosmetic product facility registrations and product listings to FDA. FDA intends to delay enforcement of the cosmetic product facility registration and product listing requirements to help ensure that owners or operators of cosmetic product facilities and responsible persons for cosmetic products have sufficient time to gather the relevant information required for facility registration and product listing, including obtaining facility registration numbers to associate with cosmetic product listings, obtaining access to the electronic submissions database, and verifying accurate registration and listing information for submission.

The guidance represents the current thinking of FDA on the issues within. It does not establish any rights for any

person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

This guidance contains no collection of information. Therefore, clearance by the Office of Management and Budget under the Paperwork Reduction Act of 1995 is not required.
