

To fulfill these objectives, GAO has requested access to records, data, and documents submitted to EPA pursuant to TSCA, 15 U.S.C. 2601 *et seq.*, the Pollution Prevention Act (PPA), 42 U.S.C. 13101 *et seq.*, and other applicable statutes administered by EPA's Office of Pollution Prevention and Toxics (OPPT) from October 1, 2021, through the date of this notice. The requested information may include submissions that have been claimed as, or have been determined to be, CBI. GAO has not indicated which or how many TSCA section 5 submissions they may need to access, but their planned review of this information will likely require the viewing and analysis of some features of unredacted submissions that have been claimed as CBI. Consequently, GAO staff may view CBI material in TSCA section 5 submissions incidental to their review and examination of EPA's New Chemical Review program. EPA also intends to disclose to GAO any information related to data systems that house new chemicals review information to assess the reliability of system data.

To fulfill the request, EPA expects to provide GAO temporary access to the requested TSCA section 5 submissions via remote access to EPA's TSCA CBI LAN beginning as early as 10 days following this notice. At this point, EPA does not anticipate transferring physical custody of any requested information or documents to GAO.

The disclosure of CBI is limited to GAO and further disclosure is generally restricted by 31 U.S.C. 716(e) and subject to criminal penalties under 18 U.S.C. 1905. At the conclusion of the GAO review, all CBI-claimed documents will be destroyed, deleted, or returned to EPA, if applicable.

## FEDERAL COMMUNICATIONS COMMISSION

**[OMB 3060-0686, 3060-0944 and 3060-1163; FR ID 211755]**

### Information Collections Being Submitted for Review and Approval to Office of Management and Budget

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

**DATES:** Written comments and recommendations for the proposed information collection should be submitted on or before Thursday, May 2, 2024.

**ADDRESSES:** Comments should be sent to *www.reginfo.gov/public/do/PRAMain*. Find this particular information collection by selecting "Currently under

30-day Review—Open for Public Comments" or by using the search function. Your comment must be submitted into *www.reginfo.gov* per the above instructions for it to be considered. In addition to submitting in *www.reginfo.gov* also send a copy of your comment on the proposed information collection to Cathy Williams, FCC, via email to *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov*. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collection, contact Cathy Williams at (202) 418-2918. To view a copy of this information collection request (ICR) submitted to OMB: (1) go to the web page *http://www.reginfo.gov/public/do/PRAMain*, (2) look for the section of the web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, and (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

**SUPPLEMENTARY INFORMATION:** The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated

collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for-profit entities.

*Number of Respondents:* 192 respondents; 614 responses.

*Estimated Time per Response:* 1 hour to 120 hours.

*Frequency of Response:* On occasion, annual and quarterly reporting requirements, third party disclosure requirement, and recordkeeping requirement.

*Obligation To Respond:* Required to obtain or retain benefits. The statutory authority for Part 1 of this information collection is contained in 47 U.S.C. 151, 154(i), 154(j), 155, 225, 303(r), 309, and 325(e). The statutory authority for Part 63 of this information collection is contained in sections 1, 4(j), 10, 11, 201-205, 214, 218, 403, and 651 of the Communications Act of 1934, as amended.

*Total Annual Burden:* 2,393 hours.

*Annual Cost Burden:* \$874,045.

*Needs and Uses:* The Federal Communications Commission (Commission) is requesting that the Office of Management and Budget (OMB) approve a revision of OMB Control No. 3060-0686 to incorporate changes from three Commission orders: the Mandatory Electronic Filing Order, FCC 21-87; the 2020 Executive Branch Review Order, FCC 20-133; and the 2021 Executive Branch Standard Questions Order, FCC 21-104. The Commission also seeks approval for online electronic forms that are currently under development as part of the Commission’s modernization of its online, web-based electronic filing system—the International Communications Filing System (ICFS). To improve the Commission’s collection of information related to international section 214 authorizations (international section 214s) and to incorporate the new requirements, the Commission revised current application forms and added new forms.

First, the Mandatory Electronic Filing Order requires that any remaining applications and reports administered by the former International Bureau (whose functions are now divided among the Office of International Affairs and the Space Bureau) that are filed on paper or through an alternative filing process should be filed electronically once forms become available in ICFS. The Order sought to reduce costs and administrative burdens, and therefore to result in greater efficiencies, facilitate faster and efficient communications, and overall improve transparency to the public.

Second, the 2020 Executive Branch Review Order and the 2021 Executive Branch Standard Questions Order create new requirements associated with certain applications, including international section 214 applications with reportable foreign ownership, that will be reviewed by the relevant Executive Branch agencies for national security, law enforcement, foreign policy, and trade policy issues as well as other changes.

In the 2020 Executive Branch Review Order, the Commission adopted rules and procedures to facilitate a more streamlined and transparent review process for coordinating applications with the Executive Branch agencies. The Commission also established firm time frames for the Executive Branch agencies to complete their review consistent with Executive Order 13913, which established the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector (the Committee).

Specifically, under the new rules, the Committee has 120 days for initial review, plus an additional 90 days for secondary assessment if the Committee determines that the risk to national security or law enforcement interests cannot be mitigated with standard mitigation measures. The Commission also adopted and codified five categories of information for which applicants must provide detailed and comprehensive information to the Committee.

In the 2021 Executive Branch Standards Questions Order, the Commission adopted the Standard Questions—a baseline set of national security and law enforcement questions covering the five categories of information described above. The responses to the Standard Questions will replace the information that applicants currently provide to the Committee on an individualized basis. The Standard Questions consist of six separate questionnaires (based on subject matter) and a supplement for the provision of personally identifiable information (PII). Two of these questionnaires and the PII supplement are applicable to international section 214s. International section 214 applicants with reportable foreign ownership will be required to answer the questions, and file their responses, as well as a copy of the FCC application, directly with the Committee.

Finally, the Commission is in the process of modernizing ICFS (ICFS Modernization). This includes developing new and revised international section 214 application forms to improve the Commission’s information collection and comply with the new requirements. Until the electronic forms are approved, international section 214 applicants are required to provide the information required by the 2020 Executive Branch Review Order and the 2021 Executive Branch Standard Questions Order by filing current applications and filing separate documents into ICFS to comply with the rules. We estimate that the projected completion date for the modernized ICFS, including all international section 214 application forms, will be July 2024.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business and other for-profit entities.

*Number of Respondents and Responses:* 41 respondents; 118 responses.

*Estimated Time per Response:* 1 to 120 hours.

*Frequency of Response:* On occasion reporting requirement, Quarterly reporting requirement, Recordkeeping requirement and third-party disclosure requirement.

*Obligation To Respond:* Required to obtain or retain benefits. The statutory authority for this information collection is contained in the Submarine Cable Landing License Act of 1921, 47 U.S.C. 34–39, Executive Order 10530, Executive Order 13913, section 5(a), and the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i)–(j), 155, 303(r), 309, and 403.

*Total Annual Burden:* 960 hours.

*Total Annual Cost:* \$340,255.

*Needs and Uses:* The Federal Communications Commission (Commission) is requesting that the Office of Management and Budget (OMB) approve revisions to OMB Control No. 3060–0944 to incorporate the new requirements adopted by the Commission in the 2020 Executive Branch Review Order, FCC 20–133, and the 2021 Executive Branch Standard Questions Order, FCC 21–104. The Commission also seeks approval for online electronic forms that are currently under development as part of the Commission's modernization of its International Communications Filing System (ICFS). To improve the Commission's collection of information related to submarine cable applications and to incorporate the new requirements, the Commission revised current submarine cable application forms and added new forms.

*Form Number:* ISP-PDR—Section 310(b) Petition for Declaratory Ruling (new form); ISP-AMD—Section 310(b) Petition for Declaratory Ruling Amendment (new form); and ISP-WAV Section 310(b) Petition for Declaratory Ruling Waiver Request (new form).

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for-profit entities.

*Number of Respondents and Responses:* 20 respondents; 52 responses.

*Estimated Time per Response:* 1 hour to 120 hours.

*Frequency of Response:* On-occasion reporting requirement.

*Obligation To Respond:* Required to obtain or retain benefits. The statutory authority for Part 1 of this information collection is contained in 47 U.S.C. 151, 154(i), 154(j), 155, 225, 303(r), 309, and 325(e).

*Total Annual Burden:* 1,219 hours.

*Total Annual Cost:* \$407,000.

*Needs and Uses:* The Federal Communications Commission (Commission) is requesting that the Office of Management and Budget (OMB) approve a revision of OMB Control No. 3060–1163 to incorporate new requirements adopted by the Commission in the 2020 Executive Branch Review Order, FCC 20–133, and the 2021 Executive Branch Standard Questions Order, FCC 21–104. The Commission also seeks approval for online electronic forms that are currently under development as part of the Commission's modernization of its online, web-based electronic filing system—the International Communications Filing System (ICFS). The Commission has developed new ICFS forms to improve the Commission's collection of information related to foreign ownership petitions for declaratory ruling under section 310(b) of the Communications Act of 1934, as amended (the Act) (section

310(b) petitions or petitions) related to common carrier wireless, aeronautical en route, and aeronautical fixed radio station licenses (collectively, wireless common carrier licenses) and to incorporate the new requirements.

First, the 2020 Executive Branch Review Order and the 2021 Executive Branch Standard Questions Order create new requirements associated with certain applications, including section 310(b) petitions that will be reviewed by the relevant Executive Branch agencies for national security, law enforcement, foreign policy, and trade policy issues as well as other changes.

In the 2020 Executive Branch Review Order, the Commission adopted rules and procedures to facilitate a more streamlined and transparent review process for coordinating applications with the Executive Branch agencies. The Commission also established firm time frames for the Executive Branch agencies to complete their review consistent with Executive Order 13913, which established the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector (the Committee). Specifically, under the new rules, the Committee has 120 days for initial review, plus an additional 90 days for secondary assessment if the Committee determines that the risk to national security or law enforcement interests cannot be mitigated with standard mitigation measures. The Commission also adopted and codified five categories of information for which applicants must provide detailed and comprehensive information to the Committee.

Second, in the 2021 Executive Branch Standards Questions Order, the Commission adopted the Standard Questions—a baseline set of national security and law enforcement questions covering the five categories of information described above. The responses to the Standard Questions will replace the information that petitioners currently provide to the Committee on an individualized basis. The Standard Questions consist of six separate questionnaires (based on subject matter) and a supplement for the provision of personally identifiable information (PII). Petitioners will be required to submit their responses to the Standard Questions and a copy of the section 310(b) petition, directly with the Committee. Broadcast petitioners will be required to answer Standard Questions specific to broadcast licenses and common carrier wireless petitioners will be required to answer Standard Questions specific to common carrier licenses as well as a general PII

supplement applicable to all respondents to the Standard Questions.

Finally, the Commission is in the process of modernizing ICFS (ICFS Modernization). Common carrier wireless section 310(b) petitions are filed through ICFS while broadcast section 310(b) petitions are filed through the Media Bureau's Licensing and Management System (LMS) when submitted with a broadcast construction permit, assignment, or transfer of control application. The ICFS Modernization includes developing forms for the submission of petitions related to common carrier wireless licenses to improve the Commission's information collection and comply with the new requirements. Until the new ICFS forms are approved, common carrier wireless section 310(b) petitioners will be required to provide the information required by the 2020 Executive Branch Review Order and the 2021 Executive Branch Standard Questions Order by filing current petitions and filing separate documents into ICFS to comply with the rules. We estimate that the projected completion date for the modernized ICFS, including all forms related to common carrier wireless section 310(b) petitions, will be July 2024.

## FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 211950]

### Privacy Act of 1974; Matching Program

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice of a new matching program.

**SUMMARY:** In accordance with the Privacy Act of 1974, as amended ("Privacy Act"), this document announces a new computer matching program the Federal Communications Commission ("FCC" or "Commission" or "Agency") and the Universal Service Administrative Company (USAC) will conduct with the Connecticut Department of Social Services. The purpose of this matching program is to verify the eligibility of applicants to and subscribers of Lifeline, and the Affordable Connectivity Program (ACP), both of which are administered by USAC under the direction of the FCC. More information about these programs

is provided in the **SUPPLEMENTARY INFORMATION** section below.

**DATES:** Written comments are due on or before May 2, 2024. This computer matching program will commence on May 2, 2024, and will conclude 18 months after the effective date.

**ADDRESSES:** Send comments to Elliot S. Tarloff, FCC, 45 L Street NE, Washington, DC 20554, or to *Privacy@fcc.gov*.

**FOR FURTHER INFORMATION CONTACT:** Elliot S. Tarloff at 202-418-0886 or *Privacy@fcc.gov*.

**SUPPLEMENTARY INFORMATION:** The Lifeline program provides support for discounted broadband and voice services to low-income consumers. Lifeline is administered by the Universal Service Administrative Company (USAC) under FCC direction. Consumers qualify for Lifeline through proof of income or participation in a qualifying program, such as Medicaid, the Supplemental Nutritional Assistance Program (SNAP), Federal Public Housing Assistance, Supplemental Security Income (SSI), Veterans and Survivors Pension Benefit, or various Tribal-specific federal assistance programs.

In the Consolidated Appropriations Act, 2021, Public Law 116-260, 134 Stat. 1182, 2129-36 (2020), Congress created the Emergency Broadband Benefit Program, and directed use of the National Verifier to determine eligibility based on various criteria, including the qualifications for Lifeline (Medicaid, SNAP, etc.). EBBP provided \$3.2 billion in monthly consumer discounts for broadband service and one-time provider reimbursement for a connected device (laptop, desktop computer or tablet). In the Infrastructure Investment and Jobs Act, Public Law 117-58, 135 Stat. 429, 1238-44 (2021) (codified at 47 U.S.C. 1751-52), Congress modified and extended EBBP, provided an additional \$14.2 billion, and renamed it the Affordable Connectivity Program (ACP). A household may qualify for the ACP benefit under various criteria, including an individual qualifying for the FCC's Lifeline program.

In a Report and Order adopted on March 31, 2016, (81 FR 33026, May 24, 2016) (*2016 Lifeline Modernization Order*), the Commission ordered USAC to create a National Lifeline Eligibility Verifier ("National Verifier"), including the National Lifeline Eligibility Database (LED), that would match data about Lifeline applicants and subscribers with other data sources to verify the eligibility of an applicant or subscriber. The Commission found that the National Verifier would reduce
