Certain Activated Carbon From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2012-2013

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("Department") published its *Preliminary Results* of the sixth antidumping duty administrative review on certain activated carbon from the People's Republic of China ("PRC") on May 22, 2014,¹ in which we gave interested parties an opportunity to comment on the *Preliminary Results*. Based upon our analysis of the comments received, we made changes to the margin calculations for these final results of the antidumping duty administrative review. The final weighted-average dumping margins are listed below in the "Final Results of the Review" section of this notice. The period of review ("POR") is April 1, 2012, through March 31, 2013.

DATES: *Effective Date:* November 25, 2014.

FOR FURTHER INFORMATION CONTACT: Bob Palmer, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-9068.

SUPPLEMENTARY INFORMATION:

Background

The Department published the *Preliminary Results* on May 22, 2014.² In accordance with 19 CFR 351.309(c)(1)(ii), we invited parties to comment on our *Preliminary Results*.³ On June 19, 2014, the Department fully extended the time limit for completion of the final results of this administrative review.⁴ The Department extended the

deadlines for submission of case and rebuttal briefs twice based on requests from interested parties.⁵ On July 3, 2014, Albemarle,⁶ Calgon,⁷ Carbon Activated,⁸ Cherishmet,⁹ Huahui¹⁰ and Jacobi¹¹ submitted case briefs.¹² On July 18, 2014, Petitioners¹³ and Albemarle submitted rebuttal briefs.¹⁴ On July 29, 2014, pursuant to 19 CFR 351.302(d), we rejected Jacobi's case brief because it contained untimely new factual information, and instructed Jacobi to resubmit a redacted case brief, which it submitted on July 30, 2014. On September 24, 2014, the Department held a public hearing limited to issues raised in case and rebuttal briefs.

Scope of the Order

The merchandise subject to the *Order* is certain activated carbon.¹⁵ The products are currently classifiable under the Harmonized Tariff Schedule of the United States ("HTSUS") subheading 3802.1000. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of the order remains dispositive.¹⁶

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties are addressed in the Issues & Decision Memo. A list of the issues which parties raised is attached to this notice as an Appendix. The Issues & Decision Memo is a public document and is on file in the Central Records Unit ("CRU"), Room 7046 of the main Department of Commerce building, as well as electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System ("IA ACCESS"). IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and it is available to all parties in the CRU. In addition, a complete version of the Issues & Decision Memo can be accessed directly on the internet at <http://enforcement.trade.gov/frn/index.html>. The signed Issues & Decision Memo and the electronic version of the Issues & Decision Memo are identical in content.

Changes Since the Preliminary Results

Based on our review of the record and comments received from interested parties regarding our *Preliminary Results*, we have made certain revisions to the margin calculations for Jacobi, Cherishmet, and the non-examined, separate rate respondents.¹⁷ Further, the Surrogate Values Memo¹⁸ contains descriptions of our changes to the surrogate values.

Final Determination of No Shipments

In the *Preliminary Results*, the Department preliminarily determined that Sinocarbon International Trading Co., Ltd. ("Sinocarbon") did not have any reviewable transactions during the POR. We have not received any information to contradict this determination. Therefore, the Department made the final determination that Sinocarbon did not have any reviewable entries of subject merchandise during the POR, and will

¹⁷ See Issues & Decision Memo and the company-specific analysis memoranda for further explanation regarding these changes.

¹⁸ See Memorandum to the File, through Catherine Bertrand, Program Manager, Office V, from Bob Palmer, Case Analyst, Office V, Certain Activated Carbon From the People's Republic of China ("PRC"): Surrogate Values for the Final Results," dated concurrently with this notice ("Surrogate Values Memo").

issue appropriate instructions that are consistent with our "automatic assessment" clarification, for these final results.

Separate Rate Respondents

In our *Preliminary Results*, we determined that the following companies met the criteria for separate rate status: Jacobi; Cherishmet; Huahui; Calgon Carbon (Tianjin) Co., Ltd.; Datong Juqiang Activated Carbon Co., Ltd.; Datong Municipal Yunguang Activated Carbon Co., Ltd.; Jilin Bright Future Chemicals Company, Ltd.; Ningxia Mineral and Chemical Limited; Shanxi Sincere Industrial Co., Ltd.; Tianjin Channel Filters Co., Ltd.¹⁹ We have received no comments or argument since the issuance of the *Preliminary Results* that provides a basis for reconsideration of these determinations. Therefore, the Department continues to find that the companies listed above meet the criteria for a separate rate.

Rate for Non-Examined Separate Rate Respondents

In the *Preliminary Results*,²⁰ and consistent with the Department's practice,²¹ we assigned the non-examined, separate rate companies a rate calculated using the ranged total U.S. sales quantities from the public version of the submissions from the individually-examined respondents with weighted-average dumping margins that are not zero or *de minimis* (i.e., less than 0.5 percent)²² from the public versions of their submissions.²³ No parties have commented on the methodology for calculating this separate rate. For the final results, we continue to find this approach to be consistent with the intent of section 735(c)(5)(A) of the Act and our use of section 735(c)(5)(A) of the Act as

²² See Jacobi's public version of its supplemental Section A questionnaire response, dated August 21, 2013, at Exhibit A–1; see also Cherishmet's public version of its supplemental Section A questionnaire response, dated August 30, 2013, at Exhibit SA–1.

guidance when we establish the rate for separate rate respondents not examined individually in an administrative review.²⁴

Because the calculated net U.S. sales values for the individually-examined respondents with weighted-average dumping margins that are not zero or *de minimis* are business-proprietary figures, we find that \$0.04 U.S. Dollars/kilogram ("USD/kg"), which we calculated using the publicly available figures of U.S. sales quantities for these firms, is the best reasonable proxy for the weighted-average dumping margin based on the calculated U.S. sales quantities of these respondents.²⁵

PRC-Wide Entity

In the *Preliminary Results*, the Department determined that those companies that did not demonstrate eligibility for a separate rate are properly considered part of the PRC-wide entity.²⁶ Since the *Preliminary Results*, we received no comments regarding these findings. Therefore, we continue to treat these entities as part of the PRC-wide entity.

Rate for the PRC-Wide Entity

The Department used the rate of 2.42 USD/kg in the most recent completed administrative review of this antidumping order for the PRC-wide entity.²⁷ Because nothing on the record of the instant review calls into question the reliability of this rate, we find it appropriate to continue to apply the rate of 2.42 USD/kg to the PRC-wide entity for these final results.²⁸

²⁹ In the second administrative review of the Order, the Department determined that it would calculate per-unit assessment and cash deposit rates for all future reviews. See *Certain Activated Carbon From the People's Republic of China: Final Results and Partial Rescission of Second Antidumping Duty Administrative Review*, 75 FR 70208, 70211 (November 17, 2010).

³⁰ In the third administrative review, the Department found Jacobi, Tianjin Jacobi International Trading Co. Ltd., and Jacobi Carbons Industry (Tianjin) are a single entity and, because there were no changes to the facts which supported that decision, we continued to find these companies part of a single entity in the fourth and fifth administrative reviews. Because there have been no changes to the facts that supported that decision in the present review, we are continuing to treat the companies as a single entity in this review. See *Certain Activated Carbon From the People's Republic of China: Final Results and Partial Rescission of Third Antidumping Duty Administrative Review*, 76 FR 67142, 67145 n.25 (October 31, 2011); see also *Certain Activated Carbon From the People's Republic of China: 2010–2011; Final Results of Antidumping Duty Administrative Review*, 77 FR 67337, 67338 n.22 (November 9, 2012); *AR5 Carbon*, 78 FR at 70535 n.32.

³¹ In the first administrative review, the Department found Beijing Pacific Activated Carbon Products Co., Ltd., Ningxia Guanghua Cherishmet Activated Carbon Co., Ltd., and Ningxia Guanghua Activated Carbon Co., Ltd. are a single entity and, because there were no changes to the facts which supported that decision, we continued to find these companies to be part of a single entity in subsequent reviews. Because there have been no changes to the facts that supported that decision in the present review, we are continuing to treat the companies as a single entity in this review. See *Certain Activated Carbon From the People's Republic of China: Notice of Preliminary Results of the Antidumping Duty Administrative Review and Extension of Time Limits for the Final Results*, 74 FR 21317, 21319 (May 7, 2009), unchanged in *First Administrative Review of Certain Activated Carbon from the People's Republic of China: Final Results of Antidumping Duty Administrative Review*, 74 FR 57995, 57998 (November 10, 2009); *AR5 Carbon*, 78 FR at 70535 n.33.

Customs and Border Protection (“CBP”) shall assess, antidumping duties on all appropriate entries covered by this review. The Department intends to issue assessment instructions to CBP 15 days after the publication date of these final results of this review. In accordance with 19 CFR 351.212(b)(1), we are calculating importer- (or customer-) specific assessment rates for the merchandise subject to this review. As the Department stated in the most recent administrative review,³³ we will continue to direct CBP to assess importer-specific assessment rates based on the resulting per-unit (*i.e.*, per-kilogram) rates by the weight in kilograms of each entry of the subject merchandise during the POR. Specifically, we calculated importer-specific duty assessment rates on a per-unit rate basis by dividing the total amount of dumping for each importer by the total sales quantity of subject merchandise sold to that importer during the POR. For any individually examined respondent whose weighted-average dumping margin is above *de minimis* (*i.e.*, 0.50 percent), the Department will calculate importer-specific assessment rates on the basis of the ratio of the total amount of dumping calculated for the importer's examined sales and the total entered value of sales.³⁴ We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review when the importer-specific assessment rate is above *de minimis*. Where either the respondent's weighted-average dumping margin is zero or *de minimis*, or an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

The Department announced a refinement to its assessment practice in NME cases. Pursuant to this refinement in practice, for entries that were not reported in the U.S. sales databases submitted by companies individually examined during this review, the Department will instruct CBP to liquidate such entries at the NME-wide rate. In addition, if the Department determines that an exporter under review had no shipments of the subject merchandise, any suspended entries that entered under that exporter's case

number (*i.e.*, at that exporter's rate) will be liquidated at the NME-wide rate.³⁵

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) For Jacobi, Cherishmet and the non-examined, separate rate respondents, the cash deposit rate will be equal to their weighted-average dumping margins established in the final results of this review, except if the rate is zero or *de minimis*, then no cash deposit will be required; (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recently completed segment of this proceeding; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be equal to the weighted-average dumping margin for the PRC-wide entity established in the final results of this review; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporters that supplied that non-PRC exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Disclosure

We intend to disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Notification to Importers Regarding the Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of double antidumping duties.

³² The PRC-wide entity includes the Shanxi DMD Corporation and Tangshan Solid Carbon Co., Ltd.

³⁵ For a full discussion of this practice, see *Non-Market Economy Antidumping Proceedings: Assessment of Antidumping Duties*, 76 FR 65694 (October 24, 2011).

Notification Regarding Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these final results of administrative review and notice in accordance with sections 751(a)(1) and 777(i) of the Act.
