Take notice that the Federal Energy Regulatory Commission will host a technical conference on Tuesday, January 6, 2005, to discuss specific transmission proposals and cost issues for the State of Connecticut. The workshop will be held in Room 2C of the Legislative Office Building, 300 Capitol Avenue, Hartford, Connecticut. The workshop is scheduled to begin at 9 a.m. and end at approximately 3 p.m. (eastern time). The Commissioners will attend and participate.

This meeting is a follow-up to the infrastructure conference that was held on October 13, 2004. The goal of the technical conference is to provide a forum for discussion of issues affecting energy infrastructure in and around Connecticut. This discussion will take place between Federal, State and regional leaders and industry representatives. The January 6 conference will focus primarily on proposals for new electric transmission, and the costs of these proposals. An agenda is forthcoming.

The conference is a technical discussion between policy leaders, which members of the public are welcome to attend. Registration is not required; however, in-person attendees are asked to register for the conference on-line by close of business on Friday, January 2, 2005, at <http://www.ferc.gov/whats-new/registration/infra-0106-form.asp>.

Transcripts of the conference will be immediately available from Ace Reporting Company ((202) 347-3700 or 1-800-336-6646) for a fee. They will be available for the public on the Commission's eLibrary system seven calendar days after FERC receives the transcript. Additionally, Capitol Connection offers the opportunity for remote listening of the conference via Real Audio or a Phone Bridge Connection for a fee. Persons interested in making arrangements should contact David Reiningger or Julia Morelli at the Capitol Connection (703) 993-3100 as soon as possible or visit the Capitol Connection Web site at <http://www.capitolconnection.org> and click on "FERC."

For more information about the conference, please contact Sarah McKinley at (202) 502-8004, sarah.mckinley@ferc.gov.

Magalie R. Salas,

Secretary.

[Docket No. RP04-428-000]

Dominion Cove Point LNG, LP; Notice of Technical Conference

October 29, 2004.

On August 27, 2004,¹ the Commission issued an order directing the Commission Staff to convene a technical conference to discuss certain issues raised by Dominion Cove Point LNG, LP (Cove Point) in a July 30, 2004, filing.

The purpose of the technical conference that is the subject of this notice is to discuss whether tariff language proposed by Cove Point in a ministerial filing is consistent with current Commission policies concerning title transfer tracking, as well as the practices of other LNG terminals.

Protestors assert that the tariff language Cove Point is proposing was originally included in its tariff in 1995, prior to the widespread use of technology permitting instant transfers of information. They assert that the requirement of two business days before providing parties with notification of a requested transfer is an obstacle to the efficient, market driven transactions that the Commission has promoted.

This technical conference will therefore give interested parties the opportunity to discuss whether Cove Point's proposal is justifiable or, as protesters assert, unreasonable in light of today's communications technology.

Take notice that the conference will be held on Tuesday, November 9, 2004 at 10 a.m. (EST), in a room to be designated at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

All interested parties and staff are permitted to attend.

Any questions or concerns about the conference should be directed to: Eric Winterbauer, Office of the General Counsel—Markets, Tariffs and Rates, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, (202) 502-8329, Eric.Winterbauer@ferc.gov.

Magalie R. Salas,

Secretary.
