## DEPARTMENT OF DEFENSE

### Defense Acquisition Regulations System

[Docket No. DARS-2015-0022]

#### Submission for OMB Review; Comment Request

**ACTION:** Notice.

The Defense Acquisition Regulations System has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

**DATES:** Consideration will be given to all comments received by August 28, 2015.

**Title, Associated Forms and OMB Number:** Defense Federal Acquisition Regulation Supplement (DFARS) Part 204, Administrative Matters: U.S.-International Atomic Energy Agency Additional Protocol; and related clause at DFARS 252.204-7010, Requirement for Contractor to Notify DoD if the Contractor's Activities are Subject to Reporting Under the U.S.-International Atomic Energy Agency Additional Protocol; OMB Control Number 0704-0454.

**Type of Request:** Extension.

**Number of Respondents:** 300.

**Responses per Respondent:** 1.

**Annual Responses:** 300.

**Average Burden per Response:** 1 hour.

**Annual Burden Hours:** 300.

**Needs and Uses:** This requirement is necessary to provide for protection of information or activities with national

security significance. As such, this information collection requires contractors to comply with the notification process at DFARS clause 252.204-7010, Requirement for Contractor to Notify DoD if the Contractor's Activities are Subject to Reporting Under the U.S.-International Atomic Energy Agency Additional Protocol.

Under the U.S.-International Atomic Energy Agency (IAEA) Additional Protocol, the United States is required to declare a wide range of public and private nuclear-related activities to the IAEA and potentially provide access to IAEA inspectors for verification purposes. The U.S.-IAEA Additional Protocol permits the United States unilaterally to declare exclusions from inspection requirements for activities with direct national security significance.

The clause at 252.204-7010 is included in contracts for research and development or major defense acquisition programs involving fissionable materials (*e.g.*, uranium, plutonium, neptunium, thorium, americium); other radiological source materials; or technologies directly related to nuclear power production, including nuclear or radiological waste materials.

The clause requires a contractor to provide written notification to the applicable DoD program manager and a copy of the notification to the contracting officer if the contractor is required to report its activities under the U.S.-IAEA Additional Protocol. Upon such notification, DoD will determine if access may be granted to IAEA inspectors, or if a national security exclusion should be applied.

**Affected Public:** Businesses or other for-profit and not-for-profit institutions.

**Frequency:** On occasion.

**OMB Desk Officer:** Ms. Jasmeet Seehra.

Written comments and recommendations on the proposed information collection should be sent to Ms. Seehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.
