

**DATES:** Only written comments and/or applications for a license which are received by the National Cancer Institute's Technology Transfer Center on or before April 28, 2022 will be considered.

**ADDRESSES:** Requests for copies of the patent application, inquiries, and comments relating to the contemplated an Exclusive Patent License should be directed to: Whitney Hastings, Ph.D., Senior Technology Transfer Manager at [whitney.hastings2@nih.gov](mailto:whitney.hastings2@nih.gov).

**SUPPLEMENTARY INFORMATION:**

**Intellectual Property**

United States Provisional Patent Application No. 63/030,815, filed May 27, 2020, entitled "TARGETING THE CHOLECYSTOKININ-B RECEPTOR FOR IMAGING AND EARLY DETECTION OF PANCREATIC CANCER AND PRE-CANCEROUS LESIONS," [HHS Ref. No. E-184-2020-0].

The patent rights in these inventions have been assigned to the Government of the United States of America and Georgetown University. The prospective patent license will be for the purpose of consolidating the patent rights to Georgetown, the co-owner of said rights, for commercial development and marketing. Consolidation of these co-owned rights is intended to expedite development of the invention, consistent with the goals of the Bayh-Dole Act codified as 35 U.S.C. 200-212.

The prospective patent license will be worldwide, exclusive, and may be limited to those fields of use commensurate in scope with the patent rights. It will be sublicensable, and any sublicenses granted by Georgetown will be subject to the provisions of 37 CFR part 401 and 404.

This technology discloses a method of detecting the presence of a pancreatic intraepithelial neoplasia lesion *in vivo* via administering to the subject a construct, or a pharmaceutically acceptable salt thereof, wherein the construct is comprised of siRNA-polymer nanoparticle complex that selectively bind to cholecystokinin-B receptors. The nanoparticle can be conjugated with a fluorophore or radioactive molecule (e.g., technetium). In conjunction with an imaging device, the polyplex nanoparticle could be used to detect the presence of precancerous pancreatic intraepithelial neoplasia (PanIN) lesions.

This notice is made in accordance with 35 U.S.C. 209 and 37 CFR part 404. The prospective exclusive license will be royalty bearing, and the prospective exclusive license may be granted unless

within fifteen (15) days from the date of this published notice, the National Cancer Institute receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.

In response to this Notice, the public may file comments or objections. Comments and objections, other than those in the form of a license application, will not be treated confidentially, and may be made publicly available.

License applications submitted in response to this Notice will be presumed to contain business confidential information and any release of information in these license applications will be made only as required and upon a request under the Freedom of Information Act, 5 U.S.C. 552.

Dated: April 7, 2022.

**National Institute on Drug Abuse; Notice of Closed Meeting**

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

*Name of Committee:* National Institute on Drug Abuse Special Emphasis Panel; NIH HEAL Initiative: Preventing Opioid Misuse and Co-Occurring Conditions by Intervening on Social Determinants.

*Date:* May 13, 2022.

*Time:* 1:00 p.m. to 2:30 p.m.

*Agenda:* To review and evaluate grant applications.

*Place:* National Institutes of Health, National Institute on Drug Abuse, 301 North Stonestreet Avenue, Bethesda, MD 20892 (Virtual Meeting).

*Contact Person:* Marisa Srivareerat, Ph.D., Scientific Review Officer, Scientific Review Branch, Office of Extramural Policy, National Institute on Drug Abuse, NIH, 301 North Stonestreet Avenue, MSC 6021, Bethesda, MD 20892, (301) 435-1258, [marisa.srivareerat@nih.gov](mailto:marisa.srivareerat@nih.gov).

**Coast Guard**

[Docket No. USCG-2022-0160]

**National Merchant Marine Personnel Advisory Committee Meeting; May 2022 Teleconference**

**AGENCY:** U.S. Coast Guard, Department of Homeland Security.

**ACTION:** Notice of Federal advisory committee teleconference meeting.

**SUMMARY:** The National Merchant Marine Personnel Advisory Committee (Committee) will meet via teleconference to discuss issues relating to personnel in the United States Merchant Marine including the training, qualifications, certification, documentation, and fitness of mariners.

**DATES:**

*Meeting:* The National Merchant Marine Personnel Advisory Committee will meet by teleconference on Tuesday, May 3, 2022, from 10:00 a.m. until 4:30 p.m. (Eastern Daylight Time). The teleconference may adjourn early if the Committee has completed its business.

*Comments and supporting documentation:* To ensure your comments are received by Committee members before the teleconference, submit your written comments no later than April 19, 2022.

**ADDRESSES:** To join the teleconference or to request special accommodations, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section no later than 1 p.m. on April 19, 2022, to obtain the needed information. The number of individuals on a teleconference line is limited and will
