[Docket No. 250623–0106]

RIN 0648–BN36

#### Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Rocky Intertidal Monitoring Surveys Along the Oregon and California Coasts

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule; notification of issuance of Letter of Authorization.

**SUMMARY:** NMFS, upon request from the University of California Santa Cruz (UCSC), hereby issues regulations to govern the unintentional taking of marine mammals incidental to rocky intertidal monitoring surveys along the Oregon and California coasts over the course of 5 years (2025–2030). These regulations, which allow for the issuance of a Letter of Authorization (LOA) for the incidental take of marine mammals during the described activities and specified timeframes, prescribe the permissible methods of taking and other means of effecting the least practicable adverse impact on marine mammal species or stocks and their habitat, as well as requirements pertaining to the monitoring and reporting of such taking. **DATES:** This rule is effective from June 26, 2025, through June 26, 2030.

**ADDRESSES:** Electronic copies of the application and supporting documents,

#### SUPPLEMENTARY INFORMATION:

#### Purpose and Need for Regulatory Action

This rule establishes a framework under the authority of the MMPA (16 U.S.C. 1361 *et seq.*) and authorizes, for a 5-year period (2025–2030), take of marine mammals incidental to the UCSC/MARINE's rocky intertidal research activities in Oregon and California.

NMFS received an incidental take authorization (ITA) application from the UCSC/MARINE requesting 5-year regulations and an LOA to take four species of marine mammals by Level B harassment (Application). Take of harbor seal (*Phoca vitulina richardii*), Steller sea lion (*Eumetopias jubatus*), northern elephant seal (*Mirounga angustirostris*), and California sea lion (*Zalophus californianus*) would occur by Level B harassment only, incidental to visual and auditory disturbance of pinnipeds occurring near research sites. No mortality or serious injury is anticipated or authorized. Please see the Estimated Take of Marine Mammals section below for definitions of harassment.

A previous incidental take authorization was issued in association with this ongoing, long-term project. That authorization was issued to the UCSC Partnership for Interdisciplinary Studies of Coastal Oceans (referred to as UCSC/PISCO). Additional information about that action can be found at: <https://www.fisheries.noaa.gov/action/incidental-take-authorization-university-california-santa-cruz-rocky-intertidal-monitoring-0>.

#### Legal Authority for the Proposed Action

The MMPA prohibits the “take” of marine mammals, with certain exceptions. Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified
