

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2010-0124]

Notice of Request for Extension of Approval of an Information Collection; Pine Shoot Beetle; Host Material From Canada

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with regulations for the importation of pine nursery stock and various pine products from Canada to prevent the spread of pine shoot beetle into noninfested areas of the United States.

DATES: We will consider all comments that we receive on or before May 16, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2010-0124> to submit or view comments and to view supporting and related materials available electronically.

- *Postal Mail/Commercial Delivery:* Please send one copy of your comment to Docket No. APHIS-2010-0124, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road, Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2010-0124.

Reading Room: You may read any comments that we receive on this

docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information on regulations for the importation of pine nursery stock and various pine products from Canada, contact Mr. David Lamb, Import Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1236; (301) 734-4312. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Pine Shoot Beetle; Host Material from Canada.

OMB Number: 0579-0257.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (7 U.S.C. 7701 *et seq.*) (PPA), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA.

APHIS regulations in 7 CFR part 319 prohibit or restrict the importation of certain plants and plant products into the United States to prevent the introduction of plant pests. Subpart—Nursery Stock, Plants, Roots, Bulbs, Seeds, and Other Plant Products (7 CFR 319.37 through 319.37-14) restricts, among other things, the importation of living plants, plant parts, and seeds for

propagation; and Subpart—Logs, Lumber, and Other Unmanufactured Wood Articles (7 CFR 319.40-1 through 319.40-11) governs the importation of various logs, lumber, and other unmanufactured wood products into the United States. The regulations in both subparts help prevent the introduction and spread of pine shoot beetle, a pest of pine trees, into noninfested areas of the United States and contain several information collection requirements, including permits, additional declarations on certificates and phytosanitary certificates, statements of origin and movement, compliance agreements, and information on designation of products.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0401709 hours per response.

Respondents: Christmas tree and nursery industry.

Estimated annual number of respondents: 2,340.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 2,340.

Estimated total annual burden on respondents: 94 hours. (Due to averaging, the total annual burden hours

may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 9th day of March 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Animal and Plant Health Inspection Service

[Docket No. APHIS-2011-0001]

Notice of Request for Approval of an Information Collection; National Animal Health Monitoring System; Needs Assessments

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: New information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act, this notice announces the Animal and Plant Health Inspection Service's intention to initiate an information collection to support the research and development phase of surveys entitled National Animal Health Monitoring System needs assessments.

DATES: We will consider all comments that we receive on or before May 16, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2011-0001> to submit or view comments and to view supporting and related materials available electronically.

- **Postal Mail/Commercial Delivery:** Please send one copy of your comment to Docket No. APHIS-2011-0001, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road, Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2011-0001.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room

hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information on the Needs Assessment study, contact Mr. Chris Quatrano, Industry Analyst, Centers for Epidemiology and Animal Health, VS, APHIS, 2150 Centre Avenue, Building B MS 2E7, Fort Collins, CO 80526; (970) 494-7207. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION: *Title:* National Animal Health Monitoring System; Needs Assessments.

OMB Number: 0579-xxxx.

Type of Request: Approval of a new information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture (USDA) is authorized, among other things, to protect the health of our Nation's livestock and poultry populations by preventing the introduction and interstate spread of serious diseases and pests of livestock and for eradicating such diseases from the United States when feasible. In connection with this mission, APHIS operates the National Animal Health Monitoring System (NAHMS), which collects nationally representative, statistically valid, and scientifically sound data on the prevalence and economic importance of livestock diseases and associated risk factors. These data will be used by the NAHMS program to:

- Identify the highest priority issues to examine during subsequent commodity surveys;
- Understand current knowledge gaps in the industry;
- Determine the proper scope of future NAHMS studies for each commodity;
- Set objectives for upcoming NAHMS studies;
- Increase response rates through the inclusion of important and timely issues; and
- Improve final report quality and relevance to industry/respondent needs.

Collection and dissemination of animal and poultry health data is mandated by 7 U.S.C. 391, the Animal Industry Act of 1884, which established

the precursor of APHIS. In connection with the mission, APHIS, Veterinary Services is requesting approval to perform multiple needs assessments to help plan upcoming studies.

The purpose of administering needs assessments prior to the design phase of NAHMS studies is to gather producer, veterinary, and industry representatives' opinions, which help determine the focus and scope of NAHMS' studies. This will help strengthen the NAHMS program through collection of timely and relevant information. Needs assessments ensure that the NAHMS program is driven by producer and industry interests and that the studies and reports produced by NAHMS are meeting the needs of the public. No other entity/source is collecting and analyzing data to identify important information needs to be addressed by NAHMS studies.

Needs assessments may be administered to focus groups, industry groups, veterinary associations, or special interest groups. Assessments may be done in person (focus groups), via U.S. mail or via the Internet. Depending on the specific circumstances of the industry being surveyed and the best method to contact respondents, one or more of these methods may be used.

NAHMS will use the information collected during these needs assessment studies to focus on the objectives of its national studies. Producer, veterinary, and industry representatives' summarized opinions may be published in information sheets announcing the upcoming study and objectives of the study. Participation in all NAHMS studies is voluntary.

We are asking the Office of Management and Budget (OMB) to approve the use of these needs assessment surveys for three years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic,
