SUPPLEMENTARY INFORMATION: CEO, in partnership with the Employment and Training Administration (ETA), is sponsoring an implementation evaluation of grants awarded under the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities (SUPPORT) Act. CEO is seeking approval from OMB under the Paperwork Reduction Act for data collection instruments associated with the evaluation. With the goal of producing important information on innovative practices and implementation challenges in providing services that integrate employment services and substance use disorder (SUD) treatment services, DOL awarded nearly \$20 million in SUPPORT Act grants to four state workforce agencies. Grantees may use these funds to provide a range of employment services for affected individuals. The grants can also be used to train and support two types of workers: workers personally affected by opioid misuse or other SUDs (including having a friend or family member with a substance use disorder), and workers who seek to transition to professions that address the opioid crisis (such as addiction and SUD treatment, mental health services, and pain management). Finally, grantees can use a portion of their funds for individual or group outpatient treatment and recovery services, in addition to using funds for employment services. DOL contracted with Abt Associates and its partner to conduct an implementation evaluation will inform program administrators and practitioners on providing services that address both employment and treatment needs for people with SUDs. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 13, 2022 (87 FR 21924).
