Federal Register

Vol. 76, No. 218

Thursday, November 10, 2011

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

November 4, 2011.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Animal & Plant Health Inspection Service

Title: Importation of Poultry Meat and Other Poultry Products from Sinaloa and Sonora, Mexico.

OMB Control Number: 0579-0144.

Summary Of Collection: The Animal Health Protection Act of 2002 (Title X, Subtitle E, Sec. 10401-18 of Pub. L. 107-171) is the primary Federal law governing the protection of animal health. Veterinary Services, a program within USDA's Animal and Plant Health Inspection Service (APHIS), is responsible for administering regulations intended to prevent the introduction of animal diseases, such as exotic Newcastle disease (END) into the United States. APHIS currently has regulations in place that restrict the importation of poultry meat and other poultry products from Mexico due to the presence of exotic Newcastle disease in the country. However, APHIS does allow the importation of poultry meat and poultry products from the Mexican States of Sinaloa and Sonora because APHIS has determined that poultry meat and products from these two Mexican States pose a negligible risk of introducing exotic Newcastle disease into the United States. To ensure that these items are safe for importation, APHIS requires that certain data appear on the foreign meat inspection certificate that accompanies the poultry meat and other poultry products from Sinaloa and Sonora to the United States. APHIS also requires that serial numbered seals be applied to containers carrying the poultry meat and other poultry products.

Need and Use of the Information: APHIS will collect information to certify that the poultry meat or other poultry products were (1) derived from poultry born and raised in commercial breeding establishments in Sinaloa and Sonora; (2) derived from poultry that were slaughtered in Sinaloa or Sonora in a Federally-inspected slaughter plant approved to export these commodities to the United States in accordance with Food Safety & Inspection regulations; (3) processed at a Federally inspected processing plant in Sinaloa or Sonora; and (4) kept out of contact with poultry from any other State within Mexico. APHIS will also collect information to

ensure that the poultry meat or poultry products from Sinaloa and Sonora pose the most negligible risk possible for introducing exotic Newcastle disease into the United States.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 280.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 280.

Animal and Plant Health Inspection Service

Title: Foot-and-Mouth Disease; Prohibition on Importation of Farm Equipment.

OMB Control Number: 0579-0195.

Summary of Collection: The Animal Health Protection Act of 2002 is the primary Federal law governing the protection of animal health. Regulations contained in 9 CFR chapter 1, subchapter D, parts 92 through 98 prohibits the importation of used farm equipment into the United States from regions in which foot-and-mouth disease or rinderpest exist, unless the equipment has been steam-cleaned prior to export to the United States so that it is free of exposed dirt and other particulate matter. Disease prevention is the most effective method for maintaining a healthy animal population and enhancing the Animal and Plant Health Inspection Service (APHIS) ability to compete in exporting animals and animal products.

Need and Use of the Information: APHIS will collect information through the use of a certification statement completed by the farm equipment exporter and signed by an authorized official of the national animal health service of the region of origin, stating that the steam-cleaning of the equipment has been done. This is necessary to help prevent the introduction of food-and-mouth disease into the United States. If the information were not collected APHIS would be forced to discontinue the importation of any used farm equipment from FMD regions, a development that could have a damaging financial impact on exporters and importers of this equipment.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 150.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 200.

Animal Plant and Health Inspection Service

Title: Interstate Movement of Sheep and Goats.

OMB Control Number: 0579–0258.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. Disease prevention is the most effective method for maintaining a healthy animal population and enhancing the ability of the Animal and Plant Health Inspection Service (APHIS) to help U.S. producers compete in the world market of animal and animal product trade. The Veterinary Services (VS) program of APHIS is the unit responsible for carrying out the disease prevention mission. One of the APHIS disease eradication programs addresses scrapie. Scrapie is a progressive, degenerative, and eventually fatal disease affecting the central nervous system of sheep and goats.

Need and Use of the Information: In order for APHIS' scrapie eradication program to be effective, its animal identification, recordkeeping, and other requirements must be carried out at livestock facilities that handle sheep and goats moving in interstate commerce. The individual legally responsible for the day-to-day operation of the facility must execute an Approval of Livestock Facilities Agreement with APHIS. The information restricts the interstate movement of livestock within the United States to control diseases of concern and approve livestock facilities that handle sheep and goats moving in interstate commerce.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 200.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 237.

Charlene Parker,

Departmental Information Collection Clearance Officer.

National Agricultural Statistics Service

Notice of Intent To Request Approval To Revise and Extend an Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request approval to revise and extend a currently approved information collection, the Milk and Milk Products Surveys. Revision to burden hours will be needed due to changes in the size of the target population, sample design, and/or questionnaire length.

DATES: Comments on this notice must be received by January 9, 2012 to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535–0020, by any of the following methods:

- *Email:* ombofficer@nass.usda.gov.

Include docket number above in the subject line of the message.

- *Fax:* (202) 720–6396.

• *Mail:* Mail any paper, disk, or CD–ROM submissions to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW., Washington, DC 20250–2024.

• *Hand Delivery/Courier:* Hand deliver to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW., Washington, DC 20250–2024.

FOR FURTHER INFORMATION CONTACT:

Joseph T. Reilly, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720–4333.

SUPPLEMENTARY INFORMATION: *Title:* Milk and Milk Products Surveys.

OMB Control Number: 0535–0020.

Expiration Date of Approval: March 31, 2012.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare and issue State and national estimates of crop and livestock production, prices and disposition as well as economic statistics, farm numbers, land values, on-farm pesticide usage, pest crop

management practices, as well as the Census of Agriculture. The Milk and Milk Products Surveys obtain basic agricultural statistics on milk production and manufactured dairy products from farmers and processing plants throughout the nation. Data are gathered for milk production, dairy products, evaporated and condensed milk, manufactured dry milk, and manufactured whey products. Milk production and manufactured dairy products statistics are used by the U.S. Department of Agriculture (USDA) to help administer Federal programs and by the dairy industry in planning, pricing, and projecting supplies of milk and milk products. Included in this approval request are several changes to this group of surveys. The monthly Milk Production Survey will now be conducted quarterly (January, April, July, and October) instead of monthly. Monthly estimates for the non-quarterly months will still be published for total number of dairy cows, the number of cows milked, and the total milk produced. Estimates for the non-survey months will be generated by using a combination of administrative data, regression modeling, and historic data. In the spring of 2012 NASS also plans to discontinue the collection of Dairy Product Prices. This data will be collected by the Agricultural Marketing Service (AMS) in compliance with the Mandatory Price Reporting Act of 2010, and the amended section 273(d) of the Agricultural Marketing Act of 1946.

Authority: Voluntary dairy information reporting is conducted under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985 (7 U.S.C. 2276), which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Mandatory dairy product information reporting is based on the Agricultural Marketing Act of 1946, as amended by the Dairy Market Enhancement Act of 2000 and the Farm Security and Rural Development Act of 2002 (U.S.C. 1637–1637b). This program requires each manufacturer to report to USDA the price, quantity, and moisture content of dairy products sold and each entity storing dairy products to report information on the quantity of dairy products stored. Any manufacturer that processes, markets, or stores less than 1,000,000 pounds of dairy products per year is exempt. USDA is required to maintain information, statistics, or documents obtained under these Acts in a manner that ensures that confidentiality is preserved regarding
