

implementation, participation and outcomes, and effectiveness. This new data collection will consist of two surveys that will be conducted in 2023 to collect information about CTE policy and program implementation: (1) a survey of all state directors of CTE and (2) a nationally representative sample of district coordinators of CTE.

Dated: December 28, 2022.

Juliana Pearson,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000–01–P

DEPARTMENT OF EDUCATION

[Docket No.: ED–2022–SCC–0132]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; School Pulse Panel 2023–24 Preliminary Field Activities

AGENCY: National Center for Education Statistics (NCES), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing a new information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before February 2, 2023.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. Click on this link www.reginfo.gov/public/do/PRAMain to access the site. Find this information collection request (ICR) by selecting “Department of Education” under “Currently Under Review,” then check the “Only Show ICR for Public Comment” checkbox. Reginfo.gov provides two links to view documents related to this information collection request. Information collection forms and instructions may be found by clicking on the “View Information Collection (IC) List” link. Supporting statements and other supporting documentation may be found by clicking on the “View Supporting Statement and Other Documents” link.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Carrie Clarady, 202–245–6347.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: School Pulse Panel Preliminary Field Activities.

OMB Control Number: 1850–NEW.

Type of Review: New ICR.

Respondents/Affected Public: State, Local or Tribal Governments.

Total Estimated Number of Annual Responses: 9,939.

Total Estimated Number of Annual Burden Hours: 2,661.

Abstract: The School Pulse Panel (SPP) is a data collection originally designed to collect voluntary responses from a nationally representative sample of public schools to better understand how schools, students, and educators are responding to the ongoing stressors of the coronavirus pandemic. It is conducted by the National Center for Education Statistics (NCES), part of the Institute of Education Sciences (IES), within the United States Department of Education, in cooperation with the U.S. Census Bureau. Due to the immediate need to collect information from schools during the pandemic to satisfy the requirement of Executive Order 14000, an emergency clearance was issued to develop and field the first several monthly collections of the SPP in 2021, and a full review of the SPP data collection was completed in 2022 (OMB# 1850–0969). SPP’s innovative design and timely dissemination of findings have been used and cited frequently among Department of Education senior leadership, the White House Domestic Policy Counsel, the USDA’s Food and Nutrition Service, the Centers for Disease Control and Prevention, Congressional deliberations, and the media. The ongoing, growing interest by stakeholders has resulted in the request for dedicated funding to create an established NCES quick-

turnaround data collection vehicle, with the goal of standing up a post-pandemic panel to begin with the 2023–24 school year. One notable difference for the next SPP study will be the addition of a district-level survey. The purpose of the district component is two-fold: (1) to collect data on topics that schools cannot report about such as facilities, supply chain issues and finances; and (2) to reduce burden on schools by allowing district staff to report on district policies and school level data tracked at the district. The district component will enhance the breadth of data that can be collected in SPP. For the 23–24 school year, the survey may ask school and district staff about a range of topics, including but not limited to instructional mode offered; enrollment counts of subgroups of students for various subject interests; strategies to address learning recovery; safe and healthy school mitigation strategies; mental health services; use of technology; information on staffing, nutrition services, absenteeism, usage of federal funds, facilities, and overall principal and district staff experiences. Some new content will be rotated in and out monthly. As in previous waves, for SPP 2023–24 roughly 5,000 (4,000 in an initial sample and 1,000 in a reserve sample) public elementary, middle, high, and combined-grade schools will be randomly selected to participate in a panel. It is expected these schools will come from roughly 3,000 districts with a reserve sample of 300 districts to replace district refusals. The goal is national representation from 1,000 responding schools and districts to report national estimates. School and district staff will be asked to provide requested data as frequently as monthly during the 23–24 school year. This approach provides the ability to collect detailed information on various topics while also assessing changes over time for items that are repeated. Given the high demand for data collection, the content of the survey will change monthly. This request is to conduct the SPP 2023–24 preliminary activities, including contacting and obtaining research approvals from public school districts with an established research approval process (“special contact districts”), notifying sampled schools and districts of their selection for the survey, and inviting them to complete short Screener Surveys to establish a point of contact at their school and at the district.

Dated: December 28, 2022.

Stephanie Valentine,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Nevada; Meeting

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces an in-person/virtual hybrid open meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Nevada. The Federal Advisory Committee Act requires that public notice of this meeting be announced in the **Federal Register**.

DATES: Wednesday, January 18, 2023; 4 p.m.–7:50 p.m. PT.

The opportunity for public comment is at 4:10 p.m. PT.

This time is subject to change; please contact the Nevada Site Specific Advisory Board (NSSAB) Administrator (below) for confirmation of time prior to the meeting.

ADDRESSES: This meeting will be open to the public in-person at the Valley Conference Center (address below) or virtually via Microsoft Teams. To attend virtually, please contact Barbara Ulmer, NSSAB Administrator, by email nssab@emcbc.doe.gov or phone (702) 523-0894, no later than 4 p.m. PT on Monday, January 16, 2023.

Valley Electric Association, Valley Conference Center, 800 E Highway 372, Pahrump, NV 89048

Attendees should check the website listed below for any meeting format changes due to COVID-19 protocols.

FOR FURTHER INFORMATION CONTACT: Barbara Ulmer, NSSAB Administrator, by phone: (702) 523-0894 or email: nssab@emcbc.doe.gov or visit the Board's internet homepage at www.nnss.gov/NSSAB/.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to make recommendations to DOE-EM and site management in the areas of environmental restoration, waste management, and related activities.

Tentative Agenda

1. Recommendation Development on Groundwater Open House (Work Plan Item #1)
2. DOE Presentations
3. State of Nevada Division of Environmental Protection Presentation

Public Participation: The in-person/online virtual hybrid meeting is open to the public either in-person at the Valley Conference Center or via Microsoft Teams. To sign-up for public comment, please contact the NSSAB Administrator (above) no later than 4:00 p.m. PT on Monday, January 16, 2023. In addition to participation in the live public comment session identified above, written statements may be filed with the Board either before or within seven days after the meeting by sending them to the NSSAB Administrator at the aforementioned email address. Written public comment received prior to the meeting will be read into the record. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments can do so in 2-minute segments for the 15 minutes allotted for public comments.

Minutes: Minutes will be available by writing or calling Barbara Ulmer, NSSAB Administrator, U.S. Department of Energy, EM Nevada Program, 100 North City Parkway, Suite 1750, Las Vegas, NV 89106; Phone: (702) 523-0894. Minutes will also be available at the following website: http://www.nnss.gov/nssab/pages/MM_FY23.html.

Signed in Washington, DC, on December 27, 2022.

LaTanya Butler,

Deputy Committee Management Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Proposed Agency Information Collection Extension

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy (DOE).

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy pursuant to the Paperwork Reduction Act of 1995, intends to modify and extend for three years an information collection request with the Office of Management and Budget.

DATES: Comments regarding this proposed information collection must be received on or before March 6, 2023. If you anticipate any difficulty in submitting comments within that period, contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section as soon as possible.

ADDRESSES: Written comments should include Docket # EERE-2019-VT-0XXX in the subject line of the message and be sent to:

Mr. Mark Smith, Office of Energy Efficiency and Renewable Energy (EE-3V), U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585-0121, or by fax at (202) 586-1600, or by email at Mark.Smith@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Smith, at telephone: (202) email: Mark.Smith@ee.doe.gov.

SUPPLEMENTARY INFORMATION: The Department of Energy is proposing to modify and extend an information collection pursuant to the Paperwork Reduction Act of 1995. The approved collection is presently being used for Clean Cities programmatic efforts involving three Clean Cities efforts: (1) community readiness for plug-in electric vehicles (PEV); (2) DOE's National Clean Fleets Partnership; and (3) Clean Cities coalition "Ride and Drive Surveys". DOE is proposing to continue assessing levels of community readiness for PEVs and also to continue assessing progress and acceptance of advanced technology vehicles via "Ride and Drive Surveys". DOE is proposing to include a new information collection instrument that is an active and effective Clean Cities Coalition self-assessment to ensure its coalitions can remain in good standing for designation purposes. DOE will no longer be collecting information regarding its National Clean Fleets Partnership. The net result is that DOE is not proposing to expand the scope of the existing ICR.

Comments are invited on: (a) whether the modified and extended collection of information is necessary for the proper performance of the functions of DOE, including whether the information shall have practical utility; (b) the accuracy of DOE's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
