Title: Lead-Based Paint Pre-Renovation Information Dissemination—TSCA Sec. 406(b).

Abstract: This information collection involves third-party notification to owners and occupants of housing that will allow these individuals to avoid exposure to lead-contaminated dust and lead-based paint debris that are sometimes generated during renovations of housing where lead-based paint is present, thereby protecting public health. Since young children are especially susceptible to the hazards of lead, owners and occupants with children can take action to protect their children from lead poisonings. Section 406(b) of the Toxic Substances Control Act (TSCA) requires EPA to promulgate regulations requiring certain persons who perform renovations of target housing for compensation to provide a lead hazard information pamphlet (developed under TSCA section 406(a)) to the owner and occupants of such housing prior to beginning the renovation. Those who fail to provide the pamphlet as required may be subject to both civil and criminal sanctions.

Responses to the collection of information are mandatory (*see* 40 CFR part 745, subpart E). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.
