**Atofina Chemicals, Inc. Including Contract Workers of Washore Mechanical and Blessing Electric, Portland, Oregon; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on June 19, 2001, applicable to workers of Atofina Chemicals, Inc., Portland, Oregon. The notice was published in the **Federal Register** on July 5, 2001 (66 FR 35463).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. Information provided by the State and the company shows that employees of Washore Mechanical and Blessing Electric were employed by Atofina Chemicals, Inc. to repair chlorine and chlorate cells, perform pipe maintenance and installation duties and maintain and install high voltage electric systems necessary to produce chloralkali chemicals at the Portland, Oregon location of the subject firm.

Worker separations occurred at Washore Mechanical and Blessing Electric as a result of worker separations at Atofina Chemicals, Inc., Portland, Oregon.

Based on these findings, the Department is amending the certification to include workers of Washore Mechanical and Blessing Electric employed at Atofina Chemicals, Inc., Portland, Oregon.

The intent of the Department's certification is to include all workers of Atofina Chemicals, Inc., Portland, Oregon who were adversely affected by increased imports.

The amended notice applicable to TA-W-39-029 is hereby issued as follows:

All workers of Atofina Chemicals, Inc., Portland, Oregon and all workers of Washore

Mechanical and Blessing Electric, Portland, Oregon engaged in activities related to the production of chloralkali chemicals at Atofina Chemicals, Inc., Portland, Oregon, who became totally or partially separated from employment on or after April 4, 2000, through June 19, 2003, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC this 13th day of November, 2001.

**Borg Warner Air/Fluid Systems Corporation, Water Quality Valley, MS; Notice of Negative Determination on Reconsideration**

On October 29, 2001, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The notice will soon be published in the **Federal Register**.

The Department initially denied TAA to workers of Borg Warner Air/Fluid Systems Corporation, Water Valley, Mississippi based on criterion (2) of the group eligibility requirements of section 222 of the Trade Act of 1974, as amended, not being met. The workers at the subject firm were engaged in employment related to the production of transmission control solenoids, transmission control modules, throttle bodies, and air suspension control solenoids.

The petitioner indicated that the Department of Labor reviewed the wrong sales and production period. The petitioner also indicated that the layoffs pertaining to the original investigation were the direct result of anticipated reduced orders from the subject firm's major customer. The petitioner further indicated that increased imports of automobiles reduced the demand for the customers' products and in turn the customer reduced their purchases from the subject plant.

The Department, upon the request of the petitioner, acquired additional subject plant sales and production data for an additional portion of the relevant period. That data were not available during the initial investigation. The additional data obtained from the
