The TPSC prefers submissions in Microsoft Word (.docx) or Adobe Acrobat (.pdf). If you use an application other than those two, please indicate the name of the application in the ‘type comment’ field.

You must identify on the first page of the submission the subject matter of the comment as the “CBI Report to Congress.” File names should reflect the name of the person or entity submitting the comments. Please do not attach separate cover letters, exhibits, annexes, or other attachments to electronic submissions. For any comments submitted electronically that contain BCI, the file name of the business confidential version should begin with the characters ‘BCI.’ You must clearly mark any page containing BCI with ‘BUSINESS CONFIDENTIAL’ at the top of that page. Additionally, you must include ‘Business Confidential’ in the ‘type comment’ field. Filers of submissions containing BCI also must submit a public version of their submission that will be placed in the docket for public inspection. The file name of the public version should begin with the character ‘P.’ The TPSC will post the non-confidential version in the docket and it will be open to public inspection.

Noise Compatibility Program for Laredo International Airport, Webb County, Texas; Correction

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of acceptance of a noise exposure map.

SUMMARY: The Federal Aviation Administration published a document in the **Federal Register** of April 3, 2025, notifying the public of the approval of the noise compatibility program at Laredo International Airport (LRD). The document contained references to an incorrect date for City of Laredo noise exposure maps (NEM) submittal.

FOR FURTHER INFORMATION CONTACT: John MacFarlane, Regional Environmental Program Manager, Airports Division, Federal Aviation Administration, 10101 Hillwood Parkway, Fort Worth, TX 76177. Phone Number: 817–222–5681.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of April 3, 2025, in Vol. 90 No. 63, on page 14681, correct the first column second paragraph of **SUPPLEMENTARY INFORMATION** to read:

SUPPLEMENTARY INFORMATION: On June 30, 2022, City of Laredo submitted noise exposure maps (NEMs), descriptions and other supporting documentation for Laredo International Airport, for FAA’s review and acceptance. An NEM must include a description of estimated aircraft operations during a forecast period that is at least five years in the future and how those operations will affect the map and other information. The FAA completed its review of the NEMs and supporting documentation and determined the NEMs comply with the applicable statutory and regulatory requirements. That determination was effective on August 25, 2022. FAA’s determinations for the NEMs submitted by City of Laredo is limited to a finding that the maps were developed in accordance with 49 U.S.C. 47503 and the procedures in Appendix A of 14

CFR part 150. FAA's determination does not constitute approval of the City of Laredo data, information or plans, or constitute a commitment to approve a noise compatibility program or to fund the implementation of that program. If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on an NEM associated with this NCP it should be noted the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the NEMs to resolve questions concerning, for example, which properties should be covered by the provisions of 49 U.S.C. 47506. These functions are inseparable from the land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under 14 CFR part 150 or through FAA's review of NEMs. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the City of Laredo that submitted the NEMs or with those public agencies and planning agencies with which consultation is required. The FAA relied on the certification by the City of Laredo this required consultation was accomplished per 14 CFR 150.21 and 49 U.S.C. 47503.

Issued in Fort Worth, TX, on June 12, 2025.

D. Cameron Bryan,

Director (A), Airports Division, Southwest Regional Office.

DATES: Written comments should be submitted by August 15, 2025.

ADDRESSES: Please send written comments:

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-XXXX.

Title: Special Purpose Pilot

Authorization, § 61.77 Application.

Form Numbers: There are no FAA forms associated with this collection.

Information needed by the FAA is publicly viewable in the Dynamic Regulatory System (DRS). Once in DRS go to: FAA Order 8900.1 Volume 12, Chapter 3, section 4.

Type of Review: A new information collection.

Background: The FAA recognizes "authorizations" as equivalent to certificates issued by the Administrator under 49 U.S.C. 44711(a)(2), formerly the Federal Aviation Act of 1958, as amended. On August 4, 1997, the FAA adopted a final rule which replaced the special purpose pilot certificate for foreign pilots of U.S.-registered aircraft with a special purpose pilot authorization (SPPA). The SPPA under 14 CFR 61.77 provides for validation of a foreign pilot license. The rule requires pilots who hold a SPPA issued in accordance with § 61.77 to have that authorization in their possession in the aircraft when exercising the privileges of that authorization. The information collection is necessary to determine

applicant eligibility for the issuance of SPPA under 14 CFR 61.77.

Respondents: Approximately 2,259 foreign applicants.

Frequency: Information is collected on occasion.

Estimated Average Burden per

Response: 1 Hour.

Estimated Total Annual Burden: 2,259 hours.

Issued in Washington, DC, on June 10, 2025.
