

actions. The Commission's review of decisions of registered futures associations in disciplinary, membership denial, registration, and member responsibility actions is governed by Section 17(h)(2) of the Commodity Exchange Act, 7 U.S.C. 21(h)(2). The rules establish procedures and standards for Commission review of such actions, and the reporting requirements included in the procedural rules are either directly required by Section 17 of the Commodity Exchange Act or are necessary to the type of appellate review role Congress intended the Commission to undertake when it adopted that provision. Because the number of respondents, responses per respondent, and time per response has not changed, this renewal does not change the reporting burden for this collection.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On October 28, 2021, the Commission published in the Federal Register notice of the proposed extension of this information collection and provided 60 days for public comment on the proposed extension, 86 FR 59697 ("60-Day Notice"). The Commission did not receive any relevant comments on the 60-Day Notice.

Burden Statement: The estimated total annual respondent burden for this collection is three hours. This estimate includes the time needed to transmit decisions of disciplinary, membership denial, registration, and member responsibility actions to the Commission for review.

Estimated Number of Respondents: 1.

Estimated Average Burden Hour(s) per Response: 1 hour.

Estimated Number of Annual Responses per Respondent: 3.

Estimated Total Annual Burden Hours: 3 hours.

We expect to recruit about 6,000 participants across the life of the project. The Bureau will not receive any personally identifying information (PII). Any PII will be scrubbed by the contractor. We will collect demographics, psychological measures around savings, and consumers' savings goals.
