

prescribing requirements for the sharing of subscriber list information. These OMB collections are designed to help implement certain provisions of sections 222(e) and 251, and to eliminate operational barriers to competition in the telecommunications services market. Specifically, these OMB collections will be used to implement (1) local exchange carriers' ("LECs") obligations to provide their competitors with dialing parity and non-discriminatory access to certain services and functionalities; (2) incumbent local exchange carriers' ("ILECs") duty to make network information disclosures; and (3) numbering administration. The Commission estimates that the total annual burden of the entire collection, as revised, is 575,840 hours. This revision relates to a change in one of many components of the currently approved collection—specifically, certain reporting, recordkeeping and/or third party disclosure requirements under section 251(c)(5). In August 2015, the Commission adopted new rules concerning certain information collection requirements implemented under section 251(c)(5) of the Act, pertaining to network change disclosures. The changes to those rules apply specifically to a certain subset of network change disclosures, namely notices of planned copper retirements. The changes are designed to provide interconnecting entities adequate time to prepare their networks for the planned copper retirements and to ensure that consumers are able to make informed choices. There is also a change in the number of potential respondents to the rules promulgated under that section. The number of respondents as to the information collection requirements implemented under section 251(c)(5) of the Act, has changed from 1,300 to 750, a decrease of 550 respondents from the previous submission. Under section 251(f)(1) of the Act, rural telephone companies are exempt from the requirements of section 251(c) "until (i) such company has received a bona fide request for interconnection, services, or network elements, and (ii) the State commission determines . . . that such request is not unduly economically burdensome, is technically feasible, and is consistent with section 254" The Commission has determined that the number of potential respondents set forth in the previous submission inadvertently failed to take this exemption into account. There are 1,429 ILECs nationwide. Of those, 87 are non-rural ILECs and 1,342 are rural ILECs.

The Commission estimates that of the 1,342 rural ILECs, 679 are entitled to the exemption and 663 are not entitled to the exemption and thus must comply with rules promulgated under section 251(c) of the Act, including the rules that are the subject of this information collection.

Thus, the Commission estimates that there are 87 (non-rural) + 663 (rural) = 750 potential respondents. The Commission estimates that the revision does not result in any additional outlays of funds for hiring outside contractors or procuring equipment.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.
