DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Availability of Funds for Grants for the Community Access Program

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice of availability of funds.

SUMMARY: The Health Resources and Services Administration (HRSA) announces the availability of up to \$40 million to assist communities and their safety net providers in developing integrated health care delivery systems that serve the uninsured and underinsured with greater efficiency and improved quality of care. This funding is part of the \$125 million appropriated for the Community Access Program (CAP) under the FY 2001 HHS Appropriations Act, of which \$8.4 million is allocated for special projects and Agency-wide programmatic investments. For those applications that were approved, but not funded in FY 2000, approximately \$56 million will be made available pending the results of their validation site visits. The remaining \$20 million will be made available later in the fiscal year in the form of grants to new communities or in the form of supplemental/expansion awards to FY 2000 grantees.

In FY 2000, DHHS provided about \$23 million in funding for 23 communities for infrastructure development. In FY 2001, HRSA will provide grants to about 50 more communities which were approved but not funded in the FY 2000 application cycle. FY 2001 funding will also be used to support up to 40 additional communities to further their development of integrated delivery systems for the uninsured and underinsured. Grants will vary in size,

based on the scope of the project and the size of the service area, and will be for one year.

Through this program, HRSA will support infrastructure development in communities that have already begun to reorganize and integrate their health care delivery systems. Funding described in this notice is not intended to support those communities that have not yet begun the planning and development of necessary organizational structure.

This program shares some of the same goals of the W.K. Kellogg Foundation's Community Voices Program and the Robert Wood Johnson Foundation's Communities in Charge Program. These foundations have also funded communities to develop integrated health care delivery systems for the uninsured, and CAP intends to build on the learning from their experiences.

DATES: The timeline for application submission, review, and award is as follows:

January 26, 2001: Application kits and additional guidance will be available through the HRSA Grants Application Center (GAC).

February 12-16, 2001: There will be a series of six pre-application workshops conducted across the country:

Nashville, TN—February 12, 2001
New Orleans, LA—February 12, 2001
Minneapolis, MN—February 14, 2001
Denver, CO—February 14, 2001
Philadelphia, PA—February 16, 2001
San Francisco, CA—February 16, 2001

May 7, 2001: Applications due to HRSA Grants Application Center.

June 11-22, 2001: Applications reviewed.

July/August 2001: Site visits to selected applicants.

September 2001: Grant awards announced.

ADDRESSES: To receive a complete application kit (i.e., application instructions, necessary forms, and application review criteria), contact the HRSA Grants Application Center at: HRSA GAC, 1815 N. Fort Myer Drive, Suite 300, Arlington, VA 22209, Phone: 1-877-HRSA-123, Fax: 1-877-HRSA-345, E-Mail: hrsagac@hrsa.gov.

FOR FURTHER INFORMATION CONTACT: For further information, contact the Community Access Program Office: Community Access Program Office, Health Resources and Services Administration, Parklawn Building, Suite 11-25, 5600 Fishers Lane, Rockville, MD 20857, Phone: (301) 443-0536, Fax: (301) 443-0248.

SUPPLEMENTARY INFORMATION: In 1999, 42.6 million people in the United States

did not have health insurance. Of these, 24.2 million were employed—19 million worked full time and 5.2 million worked part time.

The uninsured and underinsured often have complex medical needs, remain outside organized systems of care, and have insufficient resources to obtain care. They may defer care or not receive needed services, and they are about half as likely to receive a routine check-up as insured adults. The uninsured and underinsured also rely heavily on expensive emergency rooms, and because they lack a routine source of care, they often do not receive needed follow-up services.

Many of the uninsured and underinsured rely on the nation's institutions, systems, and individual health professionals that provide a significant volume of health care services without regard for ability to pay. In many communities, these providers are struggling to care for the increasing numbers of uninsured and underinsured individuals. They face many challenges such as an uneven distribution of the burden of uncompensated care, the fragmentation of services for the uninsured, insufficient numbers of certain types of providers, reduced Medicaid revenues due to the market forces of Medicaid managed care, and a growing need for mental health and substance abuse services.

While integration among these providers is critical to serve the uninsured and underinsured with greater efficiency and to improve quality of care, many of these providers are so pressured by basic caregiving tasks, they need assistance to coordinate their efforts with other providers and to develop integrated community-based systems of care.

The Community Access Program

Program Purpose: The purpose of this program is to assist communities and consortia of health care providers to develop the infrastructure necessary to fully develop or strengthen integrated systems of care that coordinate health services for the uninsured and underinsured.

Program Goal: The coordination of services through the CAP grant will allow the uninsured and underinsured to receive efficient and higher quality care and gain entry into a comprehensive system of care. The system will be characterized by effective collaboration, information sharing, and clinical and financial coordination among all levels of care in the community network. The system will be committed to continuous performance
