The Act also allows U.S. fishing vessels to participate in the yellowfin tuna fishery in the eastern tropical Pacific Ocean (ETP) on terms equivalent with the vessels of other nations. SUPPLEMENTARY INFORMATION:

I. Abstract

National Marine Fisheries Service (NMFS) Southeast Region manages the United States (U.S.) fisheries of the exclusive economic zone (EEZ) off the South Atlantic, Caribbean, and Gulf of Mexico under the Fishery Management Plans (FMP) for each Region. The Regional Fishery Management Councils prepared the FMPs pursuant to the Magnuson-Stevens Fishery Conservation and Management Act. The regulations implementing the FMPs that have reporting requirements are at 50 CFR part 622.

The recordkeeping and reporting requirements at 50 CFR part 622 form the basis for this collection of information. NMFS Southeast Region requests information from the shrimp fishery participants to certify individual Bycatch Reduction Devices (BRDs). This information, upon receipt, results in an increasingly more efficient and accurate database for management and permitting of the fisheries of the EEZ off the South Atlantic, Caribbean, and Gulf of Mexico.

This request is for an extension of a currently approved information collection.

II. Method of Collection

Paper applications, electronic reports, and telephone calls are required from participants, and methods of submittal include Internet, electronic forms, and facsimile transmission of paper forms.

The Springfield Science Museum is requesting a permit to continue enhancement activities previously authorized under Permit No. 1555. Activities would include the acquisition of up to five captive-bred, non-releasable shortnose sturgeon. The display would be used to increase public awareness of the shortnose sturgeon and its status by educating the public on shortnose sturgeon life history and the reasons for the species decline. The proposed project to display endangered cultured shortnose sturgeon responds directly to a recommendation from the NMFS recovery plan outline for this species. The permit would not authorize any takes from the wild, nor would it authorize any release of captive sturgeon into the wild. The permit is requested for a duration of five years.
