[Docket No. CP20–490–000]

Columbia Gulf Transmission, LLC; Notice of Schedule for Environmental Review of the Mainline 300 Replacement Project

On June 30, 2020, Columbia Gulf Transmission, LLC (Columbia Gulf) filed an application in Docket No. CP20–490–000 requesting a Certificate of Public Convenience and Necessity, pursuant to Sections 7(b) and 7(c) of the Natural Gas Act, to abandon, replace, and operate certain natural gas pipeline facilities. The proposed project is known as the Mainline 300 Replacement Project (Project) and consists of the abandonment and replacement of two segments of the 36-inch-diameter Mainline 300 totaling approximately 775 feet. The Project is located in Menifee and Montgomery Counties, Kentucky. Due to increased

population density in the area along certain discrete sections of Mainline 300, Columbia Gulf is required, pursuant to Part 192 of the U.S. Department of Transportation regulations to replace segments of its existing Mainline 300 pipeline to meet the Class 3 pipeline design requirements.

On July 9, 2020, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA—January 20, 2021

90-day Federal Authorization Decision

Deadline—April 20, 2021

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Project would involve the construction and operation of the following facilities:

- Replacement of approximately 760 feet of existing 36-inch-diameter pipeline, with approximately 760 feet of new, 36-inch-diameter natural gas transmission pipeline from Milepost (MP) 6.8 to MP 6.9; and
- Replacement of approximately 15 feet of existing 36-inch-diameter pipeline, with approximately 15 feet of new, 36-inch-diameter natural gas transmission pipeline from MP 6.9 to MP 6.9.

Background

On July 31, 2020, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Mainline 300 Replacement Project and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission did not receive any comments.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP20-490-000), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Wireless Telecommunications Bureau Announces C-Band Relocation Coordinator

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Wireless Telecommunications Bureau (Bureau) announces that RSM US LLP (RSM) satisfies the selection criteria established by the Commission in the 3.7 GHz Band Report and Order and will serve as the Relocation Coordinator for the 3.7-4.2 GHz transition process.

DATES: The Order was released on September 25, 2020.

ADDRESSES: Federal Communications Commission, 445 12th Street SW, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT:

Anna Gentry of the Wireless Telecommunications Bureau, Mobility Division, at (202) 418-7769 or Anna.Gentry@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Order (DA 20-1133) released on September 25, 2020. The complete text of the Order is available for viewing via the Commission's ECFS website by entering the docket number, GN Docket No. 18-122. The complete text of the Order is also available for public inspection and copying from 8:00 a.m. to 4:30 p.m. Eastern Time (ET) Monday through Thursday or from 8:00 a.m. to 11:30 a.m. ET on Fridays in the FCC Reference Information Center, 445 12th Street SW, Room CY-B402, Washington, DC 20554, telephone 202-488-5300, fax 202-488-5563, or you may contact BCPI at its website: <http://www.BCPIWEB.com>. When ordering documents from BCPI, please provide the appropriate FCC document number, for example, DA 20-998.

Synopsis

On March 3, 2020, the Commission released the *3.7 GHz Band Report and Order* (FCC 20-22), which adopted new rules to make available 280 megahertz of mid-band spectrum for flexible use, plus a 20 megahertz guard band, throughout the contiguous United States by transitioning existing services out of the lower portion and into the upper 200 megahertz of the 3.7-4.2 GHz band (C-band). The *3.7 GHz Report and Order* allowed a search committee of eligible Fixed Satellite Service (FSS) space station operators to select, not later than July 31, 2020, a Relocation Coordinator that will be responsible for managing the overall transition and coordinating relocation actions among eligible FSS space station operators, incumbent FSS earth station operation, and new 3.7 GHz Service flexible-use licensees. The *3.7 GHz Report and Order* required that the Relocation Coordinator "must be able to demonstrate that it has the requisite expertise to perform the duties required, which will include: (1) Coordinating the schedule for clearing the band; (2) performing engineering analysis, as necessary, to determine necessary earth station migration actions; (3) assigning obligations, as necessary, for earth station migrations and filtering; (4) coordinating with overlay licensees throughout the transition process; (5) assessing the completion of the transition in each PEA and determining overlay licensees' ability to commence operations; and (6) mediating scheduling disputes."

On July 31, 2020, eligible space station operators announced that they had selected RSM to serve as the Relocation Coordinator. The search committee determined that RSM has the requisite expertise to fulfill the criteria the Commission adopted in the *3.7 GHz Report and Order* and codified in its rules. In a public notice, the Bureau sought comment on whether RSM satisfies these criteria. In response, the satellite operators submitted a filing describing RSM's qualifications, organizational structure, and plan to satisfy each of the responsibilities set forth in the *3.7 GHz Report and Order*. No commenters opposed RSM's selection.

After reviewing the record regarding RSM and its qualifications, the Bureau finds and announces by this Order that RSM has demonstrated that it has the requisite expertise to perform the duties that section 27.1413(b) of our rules, 47 CFR 27.1413(b), requires a relocation coordinator for the C-band transition to be capable of performing.

Federal Communications Commission.

Amy Brett,

Associate Division Chief, Competition and Infrastructure Policy Division, Wireless Telecommunications Bureau.

Consumer and Governmental Affairs Bureau Seeks To Determine Parties' Continuing Interest in Specific Petitions for Preemption of State Consumer Protection Requirements

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Federal Communications Commission (FCC or Commission) seeks to assess the Petitioners' continuing interests in certain Petitions that were filed between 2003 and 2005. The FCC plans to dismiss the Petitions with prejudice unless a Petitioner files a letter in the relevant docket specifying that it objects to the dismissal of its Petition and the reasons for such objections.

DATES: Petitioners may file a letter on or before November 20, 2020. Unless Petitioners take action as described, the specified Petitions will be dismissed on November 20, 2020.
