

collect core data across grantees to examine the extent to which the Government's investment has resulted in achieving OWH-related *Healthy People 2020* priorities and yields lessons learned upon which to plan future initiatives related to its mission.

Likely Respondents: The proposed collection includes plans for interviews with key staff (project directors, project coordinators, local evaluators), coalition

members (including chairs and co-chairs), and community leaders connected to the coalitions. These respondents will also complete online surveys about their perceptions of the changes in their community as a result of coalition activities. Program participants and other community members exposed to the coalitions' activities through social media will also complete online surveys. Project

directors and local evaluators also annually provide information to OWH on their coalition's functioning, the status of the cost-effectiveness analysis for their coalition's interventions, and the coalition's plans for sustainability. The following table summarizes the "Total Estimated Annualized Burden—Hours" by form and type of respondent.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hrs)	Total burden hours
1—Key Persons Discussion Guide for Telephone Interviews	90	2	1	180
2—Key Persons, Coalition Members, and Community Leaders Online Survey	200	1	20/60	67
3—Coalition Participants and Other Community Members Online Survey	510	1	20/60	170
4—Grantee Annual Report on Coalition Functioning, Cost-Effectiveness, and Sustainability Planning	10	2	2	40
Total	457

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
