

3. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. *Performance Measures:* The Government Performance and Results Act of 1993 (GPRA) directs Federal departments and agencies to improve the effectiveness of programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals.

The purpose of this priority is to fund a cooperative agreement to establish a Vocational Rehabilitation Technical Assistance Center—Youth with Disabilities to achieve, at a minimum, the following outcomes:

(a) Assist State VR agencies to identify and meet the VR needs of students and youth with disabilities consistent with section 101(a)(15) of the Rehabilitation Act;

(b) Improve the ability of State VR agencies to develop partnerships with State and local agencies, service providers, or other entities to ensure that students and youth with disabilities are referred for VR services and have access to coordinated supports, services, training, and employment opportunities, including: (1) Increasing the number of referrals and applications received by State VR agencies from agencies, service providers and others serving students and youth with disabilities; and (2) increasing the number of students and youth with disabilities receiving VR services;

(c) Improve the ability of VR personnel to develop individualized plans for employment that ensure the successful transition of students and youth with disabilities and the achievement of post-school goals; and

(d) Increase the number of students and youth with disabilities served by

VR agencies, particularly dropouts and youth involved in the correctional and foster care systems, who are engaged in education and training programs leading to the attainment of postsecondary educational skills and credentials needed for employment in high-demand occupations.

The Cooperative Agreement will specify the short-term and long-term measures that will be used to assess the grantee's performance against the goals and objectives of the project and the outcomes listed in the preceding paragraph.

In its annual and final performance report to the Department, the grant recipient will be expected to report the data outlined in the Cooperative Agreement that is needed to assess its performance.

The Cooperative Agreement and annual report will be reviewed by RSA and the grant recipient between the third and fourth quarter of each project period. Adjustments will be made to the project accordingly in order to ensure demonstrated progress towards meeting the goals and outcomes of the project.

5. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: Whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

VII. Agency Contact

FOR FURTHER INFORMATION CONTACT: Tara Jordan, U.S. Department of Education, Rehabilitation Services Administration, 400 Maryland Avenue SW., Room 5040, PCP, Washington, DC 20202-2800. Telephone: (202) 245-7341 or by email: tara.jordan@ed.gov.

If you use a TDD or a TTY, call the FRS, toll free, at 1-800-877-8339.

VIII. Other Information

Accessible Format: Individuals with disabilities can obtain this document and a copy of the application package in an accessible format (e.g., braille, large

print, audiotape, or compact disc) on request to the program contact person listed under **FOR FURTHER INFORMATION CONTACT** in section VII of this notice.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available via the Federal Digital System at: www.gpo.gov/fdsys. At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at: www.federalregister.gov. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Dated: July 27, 2015.

Michael K. Yudin,

Assistant Secretary for Special Education and Rehabilitative Services.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-414]

Application to Export Electric Energy; Roctop Investments Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: Roctop Investments Inc. (Roctop) has applied for authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before August 31, 2015.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On July 13, 2015, DOE received an application from Roctop for authority to transmit electric energy from the United States to Canada as a power marketer for five years using existing international transmission facilities.

In its application, Roctop states that it does not own or control any electric generation or transmission facilities, and it does not have a franchised service area. Roctop states that it has applied for market-based rate authority from the Federal Energy Regulatory Commission (FERC) to engage in the sale and purchase of electric energy to and from Independent System Operators and Regional Transmission Organizations. As such, the electric energy that Roctop proposes to export to Canada would be surplus energy purchased from third parties such as power marketers, independent power producers, electric utilities, and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by Roctop have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning the Roctop application to export electric energy to Canada should be clearly marked with OE Docket No. EA-414. An additional copy is to be provided directly to Ruta Kalvaitis Skucas, Pierce Atwood LLC, 900 17th St. NW., Suite 350, Washington, DC 20006 and to Vincent Thellen, 1061 Merivale Road—Unit 5, Ottawa (ON), Canada K1Z 6A9.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021, *et seq.*) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on July 24, 2015.

Brian Mills,

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF15-20-000]

Rio Bravo Pipeline Company, LLC; Rio Grande LNG, LLC; Notice of Intent To Prepare an Environmental Impact Statement for the Planned Rio Grande LNG Project and Rio Bravo Pipeline Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the Rio Grande LNG Project and Rio Bravo Pipeline Project (Rio Grande LNG Project) involving construction and operation of natural gas pipeline and liquefaction facilities by Rio Grande LNG, LLC, and Rio Bravo Pipeline Company, LLC, collectively the Rio Grande Developers (RG Developers), in Kleberg, Kenedy, Willacy, and Cameron Counties, Texas. The Commission will use this EIS in its decision-making process to determine whether the project is in the public interest.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential

environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EIS. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before August 24, 2015.

If you sent comments on this project to the Commission before the opening of this docket on March 20, 2015, you will need to file those comments in Docket No. PF15-20-000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Public Participation

For your convenience, there are four methods you can use to submit your comments to the Commission. The Commission will provide equal consideration to all comments received, whether filed in written form or provided verbally. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or efiling@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's Web site
