DEPARTMENT OF HEALTH AND HUMAN SERVICES

Indian Health Service

Health Promotion and Disease Prevention Announcement Type: New Cooperative Agreement Funding Opportunity Number: HHS-2009-IHS-HPDP-0001 Catalog of Federal Domestic Assistance Number: 93.443

Key Dates:

Application Deadline Date: July 17, 2009.

Application Review Date: July 27, 2009.

Application Notification: July 28, 2009.

Earliest Anticipated Start Date: August 3, 2009.

I. Funding Opportunity Description

The Indian Health Service (IHS) announces a cooperative agreement for Health Promotion and Disease Prevention (HP/DP). This Program is authorized under the authority of the Public Health Service Act section 301(a); Snyder Act, 25 U.S.C. 13; the Transfer Act, 42 U.S.C. 2001; and the Indian Health Care Improvement Act, 25 U.S.C. 1621(b), et seq., as amended. This Program is described under 93.443 in the Catalog of Federal Domestic Assistance (CFDA).

The purpose of the program is to enable American Indian/Alaska Native (AI/AN) communities to enhance and

expand health promotion and reduce chronic disease by: increasing physical activity, avoiding the use of tobacco and alcohol, and improving nutrition to support healthier AI/AN communities through innovative and effective community, school, clinic and work site health promotion and chronic disease prevention programs. The IHS HP/DP Initiative focuses on enhancing and expanding health promotion and chronic disease prevention to reduce health disparities among AI/AN populations. The initiative is fully integrated with the Department of Health and Human Services (HHS) Initiatives "Healthy People 2010." Potential applicants may obtain a printed copy of Healthy People 2010, (Summary Report No. 017-001-00549-5) or CD-ROM, Stock No. 017-001-00549-5, through the Superintendent of Documents, Government Printing Office, P.O. Box 371954, Pittsburgh, PA 15250-7945, (202) 512-1800. You may also access this information at the following Web sites: <http://www.healthypeople.gov/Publications> and <http://www.healthierus.gov/>.

The HP/DP Initiative targets cardiovascular disease, cancer, obesity, and underage drinking prevention and intervention efforts in AI/AN communities. Focus efforts include enhancing and maintaining personal and behavioral factors that support healthy lifestyles such as making healthier food choices, avoiding the use of tobacco and alcohol, being physically active, and demonstrating other positive behaviors to achieve and maintain good health. Major focus areas include preventing and controlling obesity by developing and implementing science-based nutrition and physical activity interventions (i.e., increase consumption of fruits and vegetables, reduce consumption of foods that are high in fat, increase breast feeding, reduce television time, and increase opportunities for physical activity). Other focal areas include preventing the consumption of alcohol and tobacco use among youth, increasing accessibility to tobacco cessation programs, and reducing exposure to second-hand smoke.

The HP/DP initiative encourages Tribal applicants to fully engage their local schools, communities, health care providers, health centers, faith-based/spiritual communities, elderly centers, youth programs, local governments, academia, non-profit organizations, and many other community sectors to work together to enhance and promote health and prevent chronic disease in their communities. The initiative is described in the Catalog of Federal Domestic
