### Cross-Media Electronic Reporting: Authorized Program Revision Approval, Idaho Department of Environmental Quality (IDEQ)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces the Environmental Protection Agency's (EPA) approval of the Idaho Department of Environmental Quality (IDEQ) request to revise/modify certain of its

EPA-authorized programs to allow electronic reporting.

**DATES:** EPA approves the authorized program revisions/modifications as of February 8, 2022.

#### FOR FURTHER INFORMATION CONTACT:

Shirley M. Miller, U.S. Environmental Protection Agency, Office of Information Management, Mail Stop 2824T, 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 566–2908, [miller.shirley@epa.gov](mailto:miller.shirley@epa.gov).

#### SUPPLEMENTARY INFORMATION:

On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On July 19, 2021, the Idaho Department of Environmental Quality (IDEQ) submitted an application titled Idaho Pollutant Discharge Elimination System (IPDES) Program for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed IDEQ's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40

CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve IDEQ's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR is being published in the **Federal Register**:

### Part 501: State Sludge Management Program Regulations Reporting Under CFR 501 & 503

IDEQ was notified of EPA's determination to approve its application with respect to the authorized programs listed above.
