Solicitation of Public Comment

Written comments and suggestions from the public should address one or more of the following four points:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

B. Purpose

The Federal Acquisition Regulatory Council is in the process of combining OMB Control Numbers for the Federal Acquisition Regulation (FAR) by FAR part to the maximum practicable extent. This consolidation is expected to improve industry's ability to easily and efficiently identify all burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or

unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports revision and extension of the expiration date of OMB Control No. 9000-0069 and combines it with the previously approved information collection OMB Control No. 9000-0108, with the new title "Indirect Cost Rates, Predetermined Indirect Cost Rates, and Bankruptcy Notifications". Upon approval of this consolidated information collection, OMB Control No. 9000-0108 will be discontinued. The burden requirements previously approved under the discontinued Number will be covered under OMB Control No. 9000-0069.

This clearance covers the information that contractors must submit to comply with the following FAR requirements:

1. 52.216-7, Allowable Cost and Payment, paragraph (d), requires that final annual indirect cost rates and the appropriate bases shall be established in accordance with FAR subpart 42.7. These rates are used, in part, in cost reimbursement contracts, time and materials contracts (other than for commercial items and not for labor-hour contracts), and for certain types of fixed price contracts construction contracts. The clause requires the contractor to submit an adequate final indirect cost rate proposal to the contracting officer and the auditor within the 6-month period following the expiration of each of its fiscal years. The proposed rates shall be based on the contractor's actual cost experience for that period. This clause provides a list of the data required to be submitted. The data is customary business financial information that the contractor can access from its automated business systems.

2. 52.216-15, Predetermined Indirect Cost Rates, used in solicitations and contracts for a cost-reimbursement research and development contract with an educational institution and addresses how the allowable indirect costs under the contract shall be obtained by applying predetermined indirect costs to bases agreed by the parties. This clause repeats the requirement in FAR 52.216-7, paragraph (d), for the contractor to submit an adequate final indirect cost rate proposal, however it does not impose any additional reporting requirements.

3. 52.242-4, Certification of Final Indirect Costs, requires the contractor's proposal of final indirect cost rates to be certified to establish or modify the rates used to reimburse the contractor for the

costs of performing under the contract. The supporting cost data are the cost accounting information normally prepared by organizations under sound management and accounting practices. This clause is incorporated into all solicitations and contracts, except for the Department of Energy Management and Operating contracts, that provide for establishment of final indirect cost rates.

4. 52.242-13, Bankruptcy. This clause requires contractors to notify the contracting officer within five days after initiating the proceedings relating to bankruptcy filing.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section

3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

CMS will be collecting this data on an ad-hoc basis until the Paperwork Reduction Act Submission has been approved. The goal of the Waiver Application for Providers and Suppliers Subject to an Enrollment Moratorium is to provide a uniform application process that all providers and suppliers may follow so that CMS is able to administer the Medicaid or Children's Health Insurance Program moratorium process in a standardized and repeatable manner. This form creates a standardized process so that moratoria decisions are being made with the same criteria each time. *Form Number:* CMS-10629 (OMB control number: 0938-1313); *Frequency:* Occasionally; *Affected Public:* Federal Government, State, Local, or Tribal Governments; *Number of Respondents:* 60; *Total Annual Responses:* 60; *Total Annual Hours:* 6.
