SUPPLEMENTARY INFORMATION:**I. Abstract**

The International Trade Administration, Import Administration, AD/CVD Enforcement, implements the U.S. antidumping and countervailing duty law. Import Administration investigates allegations of unfair trade practices by foreign governments and producers and, in conjunction with the U.S. International Trade Commission, can impose duties on the product in question to offset the unfair practices. Form ITA-357P, "Format for Petition Requesting Relief Under the U.S. Antidumping Duty Law," is designed for U.S. companies or industries that are unfamiliar with the antidumping law and the petition process. The Form is designed for potential petitioners that believe that an industry in the United States is being injured because a foreign competitor is selling a product in the United States at less than fair value. Since a variety of detailed information is required under the law before initiation of an antidumping duty investigation, the Form is designed to extract such information in the least burdensome manner possible.

II. Method of Data Collection

Form ITA-357P is sent by request to potential U.S. petitioners.

Form Number: ITA-357P.

Type of Review: Regular Submission.

Estimated Number of Respondents: 55.

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and costs) of the proposed collection of information; (c) ways to enhance the quality, utility, and

clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or forms of information technology.
