

Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

As of the February 27, 2018 date of the Commission's order in Docket No. CP16-4-001, the Commission will apply its revised practice concerning out-of-time motions to intervene in any new NGA section 3 or section 7 proceeding.¹ Persons desiring to become a party to a certificate proceeding are to intervene in a timely manner. If seeking to intervene out-of-time, the movant is required to show good cause why the time limitation should be waived, and should provide justification by reference to factors set forth in Rule 214(d)(1) of the Commission's Rules and Regulations.²

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit original and five copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on June 23, 2020.

Dated: June 2, 2020.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2019-0274; FRL-10010-07]

Issuance of an Experimental Use Permit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted an experimental use permit (EUP) to Oxitec, Ltd to test efficacy of OX5034

Aedes aegypti mosquitoes expressing tetracycline Trans-Activator Variant (tTAV-OX5034) protein for control of wild *Aedes aegypti* mosquitoes. An EUP permits use of a pesticide for experimental or research purposes only in accordance with the limitations in the permit.

FOR FURTHER INFORMATION CONTACT: Robert McNally, Biopesticides and Pollution Prevention Division (7511P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; main telephone number: (703) 305-7090; email address: BPPDFRNotices@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action Apply to me?

This action is directed to the public in general. Although this action may be of particular interest to those persons who conduct or sponsor research on pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2019-0274, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805.

Please note that due to the public health emergency the EPA Docket Center (EPA/DC) and Reading Room was closed to public visitors on March 31, 2020. Our EPA/DC staff will continue to provide customer service via email, phone, and webform. For further information on EPA/DC services, docket contact information and the current status of the EPA/DC and Reading Room, please visit <https://www.epa.gov/dockets>.

II. EUP

EPA has issued the following EUP: 93167-EUP-2. Issuance. Oxitec, Ltd., c/o Wiley Rein 1776 K Street NW, Washington, DC 20006. This EUP allows the use of 0.0115 pounds (5193.56 mg)

of the insecticide active ingredient tTAV-OX5034 protein on 6,600 acres to evaluate the control of *Aedes aegypti* mosquitoes. The program is authorized only in the States of Florida and Texas. The EUP is effective from April 30, 2020 to April 30, 2022.

Authority: 7 U.S.C. 136 *et seq.*

Dated: May 27, 2020.

Robert McNally,

Director, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs.

[FR Doc. 2020-12372 Filed 6-8-20; 8:45 am]

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0057, OMB 3060-0065; FRS 16823]

Information Collections Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it might "further reduce the information collection burden for small business concerns with fewer than 25 employees." The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before July 9, 2020.

ADDRESSES: Comments should be sent to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. Your comment must be

¹ *Tennessee Gas Pipeline Company, L.L.C.*, 162 FERC 61,167 at 50 (2018).

² 18 CFR 385.214(d)(1).

submitted into www.reginfo.gov per the above instructions for it to be considered. In addition to submitting in www.reginfo.gov also send a copy of your comment on the proposed information collection to Nicole Ongele, FCC, via email to PRA@fcc.gov and to Nicole.Ongele@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Nicole Ongele at (202) 418-2991. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called “Currently Under Review,” (3) click on the downward-pointing arrow in the “Select Agency” box below the “Currently Under Review” heading, (4) select “Federal Communications Commission” from the list of agencies presented in the “Select Agency” box, (5) click the “Submit” button to the right of the “Select Agency” box, (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060-0057.

Title: Application for Equipment Authorization, FCC Form 731.

Form Number: FCC 731.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 11,305 respondents; 24,873 responses.

Estimated Time per Response: 8.11 hours (rounded).

Frequency of Response: On occasion reporting requirement and third-party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in the 47 U.S.C. 154(i), 301, 302, 303(e), 303(f) and 303(r).

Total Annual Burden: 201,603 hours.

Total Annual Costs: \$ 50,155,140.

Privacy Act Impact Assessment: Yes. The personally identifiable information (PII) in this information collection is covered by a Privacy Impact Assessment (PIA), Equipment Authorizations Records and Files Information System. It is posted at: <https://www.fcc.gov/general/privacy-act-information#pia>.

Nature and Extent of Confidentiality: Minimal exemption from the Freedom of Information Act (FOIA) under 5 U.S.C. 552(b)(4) and FCC rules under 47 CFR 0.457(d) is granted for trade secrets which may be submitted as attachments to the application FCC Form 731. No other assurances of confidentiality are provided to respondents.

Needs and Uses: The Commission will submit this revised information collection to the Office of Management and Budget (OMB) after this 60-day comment period to obtain the three-year clearance. The Commission is reporting program changes, increases to this information collection.

As the Commission notes above, the total number of respondents, total number of responses annually, the total annual hourly burden, and the total annual costs have been updated because of the continuing growth in applications for Certification, streamlining of the application information and combining of different information collection requests. With operations in the new frequencies formed under Section 15.258 the burden hours for the applicants have increased from 201,450 hours to 201,603. However, the additional Applications that will be filed per the frequencies will become the total burden hours for applicants to \$ 50,155,140 from \$ 50,110,000.

On March 15, 2019, the Commission adopted a First Report and Order, in ET Docket No. 18-2; FCC 19-19, which involves updates to 47 CFR part 15,—“Radio Frequency Devices,” to provide permit certain operations above 95

GHz.¹ Among other things, the *Spectrum Horizons Order* made specific frequencies above 95 GHz available for the operation of radiofrequency devices without a license. Such devices are subject to the certification process of the Commission’s equipment authorization program. Accordingly, 47 CFR was amended to include a new Section 15.258 as follows:

§ 15.258 Operation in the Bands 116–123 GHz, 174.8–182 GHz, 185–190 GHz and 244–246 GHz

(a) Operation on board an aircraft or a satellite is prohibited.

(b) Emission levels within the 116–123 GHz, 174.8–182 GHz, 185–190 GHz and 244–246 GHz bands shall not exceed the following equivalent isotropically radiated power (EIRP) limits as measured during the transmit interval:

(1) The average power of any emission shall not exceed 40 dBm and the peak power of any emission shall not exceed 43 dBm; or

(2) For fixed point-to-point transmitters located outdoors, the average power of any emission shall not exceed 82 dBm and shall be reduced by 2 dB for every dB that the antenna gain is less than 51 dBi. The peak power of any emission shall not exceed 85 dBm and shall be reduced by 2 dB for every dB that the antenna gain is less than 51 dBi. The provisions in this paragraph for reducing transmit power based on antenna gain shall not require that the power levels be reduced below the limits specified in paragraph (b)(1) of this section.

(3) The peak power shall be measured with a detection bandwidth that encompasses the entire occupied bandwidth within the intended band of operation, e.g., 116–123 GHz, 174.8–182 GHz, 185–190 GHz or 244–246 GHz. The average emission levels shall be measured over the actual time period during which transmission occurs.

(4) Transmitters with an emission bandwidth of less than 100 MHz must limit their peak radiated power to the product of the maximum permissible radiated power (in milliwatts) times their emission bandwidth divided by 100 MHz. For the purposes of this paragraph, emission bandwidth is defined as the instantaneous frequency range occupied by a steady state radiated signal with modulation, outside which the radiated power spectral density never exceeds 6 dB below the maximum radiated power spectral density in the band, as

¹ *Spectrum Horizons*, First Report and Order, 34 FCC Rcd 1605(2) (2019) (*Spectrum Horizons Order*).

measured with a 100 kHz resolution bandwidth spectrum analyzer. The center frequency must be stationary during the measurement interval, even if not stationary during normal operation (e.g., for frequency hopping devices).

(c) Limits on spurious emissions:

(1) The power density of any emissions outside the band of operation, e.g., 116–123 GHz, 174.8–182 GHz, 185–190 GHz or 244–246 GHz, shall consist solely of spurious emissions.

(2) Radiated emissions below 40 GHz shall not exceed the general limits in § 15.209.

(3) Between 40 GHz and the highest frequency specified in § 15.33, the level of these emissions shall not exceed 90 pW/cm² at a distance of 3 meters.

(4) The levels of the spurious emissions shall not exceed the level of the fundamental emission.

(d) *Frequency stability.* Fundamental emissions must be contained within the frequency bands specified in this section during all conditions of operation. Equipment is presumed to operate over the temperature range –20 to +50 degrees Celsius with an input voltage variation of 85% to 115% of rated input voltage, unless justification is presented to demonstrate otherwise.

(e) Regardless of the power density levels permitted under this section, devices operating under the provisions of this section are subject to the radiofrequency radiation exposure requirements specified in §§ 1.1307(b), 2.1091 and 2.1093 of this chapter, as appropriate. Applications for equipment authorization of devices operating under this section must contain a statement confirming compliance with these requirements for both fundamental emissions and unwanted emissions. Technical information showing the basis for this statement must be submitted to the Commission upon request.

(f) Any transmitter that has received the necessary FCC equipment authorization under the rules of this chapter may be mounted in a group installation for simultaneous operation with one or more other transmitter(s) that have received the necessary FCC equipment authorization, without any additional equipment authorization. However, no transmitter operating under the provisions of this section may be equipped with external phase-locking inputs that permit beam-forming arrays to be realized.

(g) Measurement procedures that have been found to be acceptable to the Commission in accordance with § 2.947 of this chapter may be used to demonstrate compliance.

OMB Control Number: 3060–0065.

Title: Applications for New Authorization or Modification of Existing Authorization Under Part 5 of the FCC Rules-Experimental Radio Service.

Form Number: FCC Form 442.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit; Not-for-profit institutions, Individuals or households, State, Local or Tribal Government.

Number of Respondents and Responses: 405 respondents; 655 responses.

Estimated Time per Response: 15–663 hours.

Frequency of Response: On occasion reporting requirements; Recordkeeping requirements; and Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 4, 302, 303, 307 and 336 of the Communications Act of 1934, as amended.

Total Annual Burden: 3,474 hours.

Total Annual Cost: \$52,150.

Privacy Act Impact Assessment: This information collection affects individuals or households. The Commission has a System of Records, FCC/OET–1 “Experimental Radio Station License Files” which covers the personally identifiable information (PII) that individual applicants may include in their submissions for experimental radio authorizations. The system of records notice (SORN) was published in the **Federal Register** on June 11, 2019, see 84 FR 27115. The SORN may be viewed at <https://www.fcc.gov/general/privacy-act-information>.

Nature and Extent of Confidentiality: Applicants may request that any information supplied be withheld from public inspection, e.g., granted confidentiality, pursuant to 47 CFR Section 0.459 of the Commission’s rules.

Needs and Uses: The Commission will submit this revised information collection to the Office of Management and Budget (OMB) after this 60-day comment period to obtain the three-year clearance. On March 15, 2019, the Commission adopted a First Report and Order, in ET Docket No. 18–21; FCC 19–19, which updates a section of Part 5 of the CFR—Experimental Radio Service (ERS). The Commission recent R&O adopts a new subpart to the existing part 5 rules for a new and unique license type—the Spectrum Horizons Experimental Radio license (or “Spectrum Horizons License”). Specifically, the Spectrum Horizons

License will be available for experiments and demonstrations of equipment designed to operate exclusively on any frequency above 95 GHz.

§ 5.59 Forms To Be Used

(a) *Application for conventional, program, medical, compliance testing, and Spectrum Horizons experimental radio licenses.* (1) *Application for new authorization or modification of existing authorization.* Entities must submit FCC Form 442.

§ 5.77 Change in Equipment and Emission Characteristics

(a) The licensee of a conventional, broadcast, or Spectrum Horizons experimental radio station may make any changes in equipment that are deemed desirable or necessary provided:

* * *

(b) For conventional or Spectrum Horizons experimental radio stations, the changes permitted in paragraph (a) of this section may be made without prior authorization from the Commission provided that the licensee supplements its application file with a description of such change. If the licensee wants these emission changes to become a permanent part of the license, an application for modification must be filed.

§ 5.121 Station Record Requirements

(a)(1) For conventional, program, medical testing, compliance testing experimental radio stations, the current original authorization or a clearly legible photocopy for each station shall be retained as a permanent part of the station records but need not be posted. Station records are required to be kept for a period of at least one year after license expiration.

(a)(2) For Spectrum Horizons experimental radio stations, the licensee is solely responsible for retaining the current authorization as a permanent part of the station records but need not be posted. Station records are required to be kept for a period of at least one year after license expiration.

§ 5.702 Licensing Requirement—Necessary Showing

Each application must include a narrative statement describing in detail how its experiment could lead to the development of innovative devices and/or services on frequencies above 95 GHz and describe, as applicable, its plans for marketing such devices. This statement must sufficiently explain the proposed new technology/potential new service and incorporate an interference analysis

that explains how the proposed experiment would not cause harmful interference to other services. The statement should include technical details, including the requested frequency band(s), maximum power, emission designators, area(s) of operation, and type(s) of device(s) to be used.

§ 5.703 Responsible Party

(a) Each Spectrum Horizons experimental radio applicant must identify a single point of contact responsible for all experiments conducted under the license and ensuring compliance with all applicable FCC rules.

(b) The responsible individual will serve as the initial point of contact for all matters involving interference resolution and must have the authority to discontinue any and all experiments being conducted under the license, if necessary.

(c) The license application must include the name of the responsible individual and contact information at which the person can be reached at any time of the day; this information will be listed on the license. Licensees are required to keep this information current.

§ 5.704 Marketing of Devices Under Spectrum Horizons Experimental Radio Licenses

Unless otherwise stated in the instrument of authorization, devices operating in accordance with a Spectrum Horizons experimental radio license may be marketed subject to the following conditions:

(a) Marketing of devices (as defined in § 2.803 of this chapter) and provision of services for hire is permitted before the radio frequency device has been authorized by the Commission.

(b) Licensees are required to ensure that experimental devices are either rendered inoperable or retrieved by them from trial participants at the conclusion of the trial. Licensees are required to notify experiment participants in advance of the trial that operation of the experimental device is subject to this condition. Each device sold under this program must be labeled as "Authorized Under An Experimental License and May be Subject to Further Conditions Including Termination of Operation" and carry a licensee assigned equipment ID number.

(c) The size and scope of operations under a Spectrum Horizons experimental license are subject to limitations as the Commission shall establish on a case-by-case basis.

§ 5.705 Interim Report

Licensee must submit to the Commission an interim progress report 5 years after grant of its license. If a licensee requests non-disclosure of proprietary information, requests shall follow the procedures for submission set forth in § 0.459 of this chapter.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[GN Docket No. 18-122; DA 20-578; FRS 16821]

Wireless Telecommunications Bureau Announces Accelerated Clearing in the 3.7-4.2 GHz Band

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Commission announces that Eutelsat S.A. (Eutelsat), Intelsat US LLC (Intelsat), SES Americom Inc. (SES), Claro S.A. f/k/a Star One S.A. (Claro), and Telesat Canada (Telesat) have committed to clearing the 3.7-4.0 GHz band on the accelerated timeline described in the *3.7 GHz Report and Order*. The Commission finds that each of the eligible operators filed an election that meets the criteria set forth in the Report and Order and the Public Notice released on May 11, 2020 detailing the process for making an accelerated relocation election and the commitments that eligible space station operators were required to make when filing an Accelerated Relocation Election. Additionally, each eligible operator has accepted the obligations and acknowledgments associated with accelerated clearing.

DATES: Space station operators that have elected to meet the Accelerated Relocation Deadlines must satisfy the Phase I Deadline by December 5, 2021, and the Phase II deadline by December 5, 2023.

ADDRESSES: Federal Communications Commission, 445 12th Street SW, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT:

Anna Gentry of the Wireless Telecommunications Bureau, at (202) 418-7769 or anna.gentry@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Public Notice* in GN Docket No. 18-122, DA

20-578, released on June 1, 2020. The full text of this document is available for inspection and copying during normal business hours in the FCC Reference Center, 445 12th Street SW, Room CY-A257, Washington, DC 20554, or by downloading the text from the Commission's website at <https://docs.fcc.gov/public/attachments/DA-20-578A1.pdf>. Alternative formats are available for people with disabilities (Braille, large print, electronic files, audio format), by sending an email to FCC504@fcc.gov or calling the Consumer and Governmental Affairs Bureau at (202) 418-0530 (voice), (202) 418-0432 (TTY).

Synopsis

In the *Public Notice*, the Wireless Telecommunications Bureau (WTB) announces that Eutelsat S.A. (Eutelsat), Intelsat US LLC (Intelsat), SES Americom Inc. (SES), Claro S.A. f/k/a Star One S.A. (Claro), and Telesat Canada (Telesat) have committed to clear the 3.7-4.0 GHz band on the accelerated timeline described in the *3.7 GHz Report and Order*. Together, these satellite operators have accepted, in aggregate, relocation payments that exceed the minimum threshold (80%) established by the Commission and, therefore, accelerated clearing of this band has been triggered.

On March 3, 2020, the Commission released the *3.7 GHz Report and Order*, which adopted new rules to make 280 megahertz of mid-band spectrum available for flexible use through a Commission-administered public auction of overlay licenses, plus a 20 megahertz guard band, throughout the contiguous United States by transitioning existing services out of the lower portion and into the upper 200 megahertz of the 3.7-4.2 GHz band (C-band). The *Report and Order* required eligible space station operators committing to accelerated clearing to make their election by May 29, 2020 to provide potential bidders with adequate certainty regarding the clearing date and payment obligations associated with each license should they become overlay licensees. The Commission found that at least 80% of accelerated relocation payments must be accepted via Accelerated Relocation Elections in order for the Commission to accept elections and require overlay licensees to pay accelerated relocation payments.

On May 11, 2020, WTB released a *Public Notice* detailing the process for making an accelerated relocation election and the commitments that eligible space station operators were required to make when filing an Accelerated Relocation Election. By
