The Commission's Rules of Practice and Procedure require all intervenors

filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, it must also serve a copy of the document on that resource agency.

k. *Description of Request*: The licensee proposes to refurbish the four turbine generating units at the Oxbow Development of the project sequentially over the course of approximately four years. The licensee also proposes to increase the size of the erection deck at the development by extending it to the east and provide an area for additional parking and a job trailer to facilitate the turbine generating maintenance. All proposed activity for the turbine and generator maintenance would occur in the powerhouse. The only ground disturbing area would be to the east of the existing erection deck and would be approximately 0.75 acres. None of the work being done will involve in water work, and the licensee would use best management practices for construction. A single turbine generating unit would be offline periodically during the refurbishment period. Therefore, the proposal may result in an increased flow over the spillway while the work is being done, depending on whether the inflow to the project exceeds the hydraulic capacity of the three online units. Under the proposal, the total authorized capacity of the project would increase from 1,222,300 to 1,252,065 kilowatts and the hydraulic capacity of each unit at the Oxbow Development would increase from 5,400 to 6,000 cubic feet per second.

l. *Locations of the Application*: This filing may be viewed on the Commission's website at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Documents*: Any filing must (1) bear in all capital letters the title “COMMENTS”, “PROTEST”, or “MOTION TO INTERVENE” as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005.
