Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on

proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-0361.

Comments are invited on: (a) whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Fast Track Generic Clearance for the Collection of Qualitative Feedback on the Substance Abuse and Mental Health Services Administration (SAMHSA) Service Delivery

Executive Order 12862 directs federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. As outlined in Memorandum M-11-26, the Office of Management and Budget (OMB) worked with agencies to create a Fast Track process to allow agencies to obtain timely feedback on service delivery while ensuring that the information collected is useful and minimally burdensome for the public, as required by the Paperwork Reduction Act of 1995.

This collection of information is necessary to enable SAMHSA to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with our commitment to improving service delivery. The information collected from our customers and stakeholders will help ensure that users have an effective, efficient, and satisfying experience with SAMHSA's programs. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services.

These collections will allow for ongoing, collaborative and actionable communications between SAMHSA and its customers and stakeholders. They also allow feedback to contribute directly to the improvement of program management. Per Memorandum M-11-26, information collection requests submitted under this Fast Track Generic will be considered approved unless OMB notifies SAMHSA otherwise within five days. Type of respondent; frequency (annual, quarterly, monthly, etc.); and the affected public (individuals, public or private businesses, state or local governments, etc.)

A variety of instruments and platforms will be used to collect information from respondents. The annual burden hours requested (87,500) are based on the number of collections we expect to conduct over the requested period for this clearance.

The estimated annual hour burden is as follows:

ESTIMATED ANNUAL REPORTING BURDEN

Type of collection	Number of respondents	Response per respondent	Hours per response	Total hours
In-person surveys, online surveys, telephone surveys, in-person observation/testing, interviews	75,000	1	0.50	37,500
Focus groups	10,000	1	2	20,000
Self-administered questionnaires, customer comment cards, interactive voice surveys	10,000	1	0.50	5,000
Unspecified collection formats	25,000	1	1	25,000
Totals	120,000	87,500

Proposed Project: Voluntary Customer Satisfaction Surveys To Implement Executive Order 12862 in the Substance Abuse and Mental Health Services Administration (SAMHSA)—(OMB No. 0930–0197)—Extension

SAMHSA provides significant services directly to the public, including treatment providers and State substance abuse and mental health agencies, through a range of mechanisms, including publications, training,

meetings, technical assistance and websites. Many of these services are focused on information dissemination activities. The purpose of this submission is to extend the existing generic approval for such surveys.

The primary use for information gathered is to identify strengths and weaknesses in current service provisions by SAMHSA and to make improvements that are practical and feasible. Several of the customer satisfaction surveys expected to be implemented under this approval will provide data for measurement of program effectiveness under the Government Performance and Results Act. Information from these customer surveys will be used to plan and redirect resources and efforts to improve or maintain a high quality of service to health care providers and members of the public. Focus groups may be used to develop the survey questionnaire in some instances.

The estimated annual hour burden is as follows:

Type of data collection	Number of respondents	Responses/ respondent	Hours/ response	Total hours
Focus groups	250	1	2.50	625
Self-administered, mail, telephone and email surveys	89,750	1	.250	22,438
Total	90,000	23,063

Proposed Project: SAMHSA's Publications and Digital Products Website Registration Survey (OMB No. 0930–0313)—Revision

The Substance Abuse and Mental Health Services Administration

(SAMHSA) is requesting OMB approval for a revision of SAMHSA's Publications and Digital Products website Registration Survey (OMB No. 0930–0313). SAMHSA is authorized under section 501(d)(16) of the Public Health Service Act (42 U.S.C. 290aa(d)(16)) to develop and distribute materials for the prevention, treatment, and recovery from mental and substance use disorders. To improve customer service and lessen the burden on the public to locate and obtain these materials, SAMHSA has developed a website that includes more than 500 free publications from SAMHSA and its component Agencies. These products are available to the public for ordering and download. When a member of the public chooses to order hard-copy publications, it is necessary for SAMHSA to collect certain customer information in order to fulfill the request. To further lessen the burden on the public and provide the level of customer service that the public has come to expect from product websites, SAMHSA has developed a voluntary registration process for its publication website that allows customers to create
