FOR FURTHER INFORMATION CONTACT: James Madon, NSTAC Designated Federal Officer, Department of Homeland Security, telephone (703) 235-4900.

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal

Advisory Committee Act, 5 U.S.C. App. (Pub. L. 92-463). The NSTAC advises the President on matters related to national security and emergency preparedness (NS/EP) telecommunications policy.

Agenda: The committee will meet in open session to receive briefings on the Federal Government's use of cloud computing; the Federal Emergency Management Agency's NS/EP communications requirements; the progress of the Government's implementation of NSTAC recommendations from the 2011 NSTAC *Report to the President on Communications Resiliency* and the 2009 NSTAC *Report to the President on Commercial Satellite Mission Assurance*; and the way forward for the committee's cloud computing effort.

The committee will meet in a closed session to review information on implementation of the National Public Safety Broadband Network as well as secure communications for mobile devices.

Basis for Closure: In accordance with 5 U.S.C. 552b(c), Government in the Sunshine Act, it has been determined that two meeting agenda items require closure as the disclosure of the information would not be in the public interest.

The first of these agenda items relates to issues and concerns surrounding the Government's planning for implementation of the National Public Safety Broadband Network, a nationwide, interoperable network for public safety. The NSTAC will discuss the migration by public safety users from legacy Land Mobile Radio to 4G technologies for their mobile telecommunications needs. The discussion will include a review of the advantages of 4G technologies, and details of various risks. In examining those risks, the NSTAC will address the vulnerabilities the technologies can have, and how the Government can best plan to mitigate those vulnerabilities. Disclosure of these vulnerabilities would provide a road map to criminals who wish to intrude into the system, and perhaps cause the government to deviate from its planned implementation of this system. Therefore, this portion of the meeting is required to be closed pursuant to 5 U.S.C. 552b(c)(9)(B).

Another agenda item will address secure communications for mobile devices. Government officials will share data with NSTAC members on initiatives, assessments, and future technical requirements for networks to be used by the government. The data to be shared includes specific

vulnerabilities of various communications modalities and is not public information. Disclosure of this information to the public would provide criminals with the means to disrupt and hack into planned devices. Since this would undermine the ability of the United States to develop secure mobile networks, this portion of the meeting is required to be closed pursuant to 5 U.S.C. 552b(c)(9)(B).

Dated: May 10, 2011.

James Madon,

Designated Federal Officer for the NSTAC.
