NUCLEAR REGULATORY COMMISSION

[NRC-2022-0225]

Availability of Revised NRC Form 3, “Notice to Employees”

AGENCY: Nuclear Regulatory
Commission.

ACTION: Generic communications;
issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is announcing the availability of the latest version of NRC Form 3, “Notice to Employees.” The NRC Form 3 describes certain responsibilities and rights of employers and employees who engage in NRC-regulated activities, including how employees can report violations or other safety concerns directly to the NRC. Licensees are required by law to post the form at prominent locations at the workplace to permit workers to view it easily.

DATES: The revised form is available as of December 20, 2022.

ADDRESSES: Please refer to Docket ID NRC-2022-0225 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

SUPPLEMENTARY INFORMATION: Section 19.11(e)(1) of title 10 of the *Code of Federal Regulations* (10 CFR), states that licensees shall prominently post the most recent version of NRC Form 3, “Notice to Employees” within 30 days of receiving the revised NRC Form 3 from the Commission. In a 1997 rulemaking, 10 CFR 19.11 (62 FR 48165) was amended to incorporate a reference to the latest version of NRC Form 3. This eliminated the need to revise the CFR whenever NRC Form 3 is changed, which had been the previous practice. The final rule published on September 15, 1997 (62 FR 48165) indicated that the NRC would inform licensees of future changes to NRC Form 3 by an administrative letter and, in addition, the availability of any new versions would be noticed in the **Federal Register**. Administrative letters were a type of generic communication issued to inform addressees of specific regulatory or administrative information but were discontinued in September 1999. As such, in lieu of an administrative letter, this revision and future revisions will be publicized through an alternative electronic means (e.g., website notice, social networking service, etc.) to alert all licensees of the new revisions, as well as in the **Federal Register**.

A new version of NRC Form 3 was issued in November 2022, to make a correction to Region I’s mailing address and add an email address for submitting concerns. To view the current version of NRC Form 3 (11-2022), please go to <https://www.nrc.gov/reading-rm/doc-collections/forms/index.html>. A Spanish language version of the form (NRC Form 3A) can also be found on the same site.

Dated: January 10, 2023.

For the Nuclear Regulatory Commission.

David L. Pelton,

Director, Office of Enforcement.
