[Docket No. 2004P-0183]

RIN 0910-ZA27

Food Labeling: Nutrient Content Claims, Expansion of the Nutrient Content Claim "Lean"

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending its food labeling regulations for the expanded use of the nutrient content claim "lean" on the labels of foods categorized as "mixed dishes not measurable with a cup" that meet certain criteria for total fat, saturated fat, and cholesterol content. This final rule responds to a nutrient content claim petition submitted by Nestlé Prepared Foods Co. (Nestlé) under the Federal Food, Drug, and Cosmetic Act (the act). This action is also being taken to provide reliable information that would assist consumers in maintaining healthy dietary practices.

DATES: This final rule is effective January 12, 2007.

FOR FURTHER INFORMATION CONTACT: Vincent de Jesus, Center for Food Safety and Applied Nutrition (HFS-830), Food and Drug Administration, 5100 Paint Branch Pkwy., College Park, MD 20740, 301-436-1774.

SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of November 25, 2005 (70 FR 71041), FDA published a proposed rule to amend the definition of the nutrient content claim "lean" (21 CFR 101.62) to include foods categorized as "mixed dishes not measurable with a cup" that are regulated by FDA and that meet the criteria in the rule for total fat, saturated fat, and cholesterol. FDA issued this proposed rule in response to a petition filed under section 403(r)(4) of the act (21 U.S.C. 343(r)(4)) and in part 101 (21 CFR part 101) in § 101.69. Section 403(r)(2)(A)(i) of the act (21 U.S.C. 343(r)(2)(A)(i)) states that a nutrient content claim may be made only if the characterization of the level made in the claim uses terms which are defined in regulations of the Secretary of Health and Human Services (the Secretary) (and, by delegation, FDA). Section 403(r)(4) of the act sets out the procedures that FDA is to follow upon receiving a nutrient content claim petition.

On January 9, 2004, Nestlé (the petitioner) submitted a petition requesting that the agency amend the nutrient content claim regulation for "lean" (21 CFR 101.62(e)) to include "mixed dishes not measurable with a cup" as defined in the "Reference amounts customarily consumed per eating occasion" regulation (21 CFR 101.12), based on certain qualifying criteria for total fat, saturated fat, and cholesterol. FDA filed the petition for comprehensive review in accordance with section 403(r)(4) of the act on April 22, 2004.

FDA's definition of the nutrient content claim "lean" includes flesh foods, such as seafood and game meat products, which are foods that are similar to the U.S. Department of Agriculture (USDA)-regulated meat and poultry products, and also includes

meal-type products (i.e., main dishes and meal products), which are included in the USDA definition. Prior to the publication of this final rule, FDA's definition of "lean," did not extend to foods categorized as "mixed dishes not measurable with a cup." Such foods, e.g., burritos, egg rolls, enchiladas, pizza, quiches, and sandwiches, are generally similar to the foods subject to the definition of "main dish" (21 CFR 101.13(m)) but do not meet the weight criterion for "main dish" foods (6 ounces (oz) per labeled serving). The Reference Amount Customarily Consumed (RACC) for "mixed dishes not measurable with a cup" is 140 grams (g) (5 oz) (21 CFR 101.12(b), Table 2), which is 1 oz less than the 6 oz per labeled serving required to qualify as a "main dish." Thus, food products categorized as "mixed dishes not measurable with a cup" and that weigh less than 6 oz were not eligible to bear a "lean" nutrient content claim under § 101.62(e).

FDA considered the evidence presented in the petition as part of its review, as well as information previously considered by the agency in the January 6, 1993, nutrient content claim final rule (58 FR 2302). Based on the available evidence, FDA acknowledged the following in the proposed rule (70 FR 71041 at 71044):

- "mixed dishes not measurable with a cup" have found their way into the American diet and serve as a convenient "meals-on-the-go" eating option that is consistent with America's changing lifestyle;
- This category has become a well established product category that consumers have come to rely on; and
- There is a growing interest in healthful alternatives to traditional food options, including vegetarian alternatives.

FDA believes that portable food products, particularly those that are
