

necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: 2020/22 Beginning Postsecondary Students (BPS:20/22) Field Test.

OMB Control Number: 1850–0631.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Individual or Households.

Total Estimated Number of Annual Responses: 25,610.

Total Estimated Number of Annual Burden Hours: 12,544.

Abstract: The 2020/22 Beginning Postsecondary Students Full-Scale (BPS:20/22) is conducted by the National Center for Education Statistics, part of the Institute of Education Sciences, within the Department of Education, and is part of the Beginning Postsecondary Students Longitudinal Study data collection program at <https://nces.ed.gov/surveys/bps/>. The BPS:20/22 Full-scale Data Collection will begin 03/01/22 and end 11/11/22. BPS is designed to follow a cohort of students who enroll in postsecondary education for the first time during the same academic year, irrespective of the date of high school completion. The study collects data on students' persistence in and completion of postsecondary education programs; their transition to employment; demographic characteristics; and changes over time in their goals, marital status, income, and debt, among other indicators. Data from BPS are used to help researchers and policymakers better understand how financial aid influences persistence and completion, what percentages of students complete various degree

programs, what are the early employment and wage outcomes for certificate and degree attainers, and why students leave school. BPS:20/22 will be a nationally-representative sample of approximately 37,000 students who were first-time beginning students during the 2019–20 academic year. The BPS:20/22 field test included approximately 3,700 students who first began in the 2018–19 academic year. These students will be asked to complete a survey and administrative data will also be collected for them. Administrative data matching will be conducted with sources including the National Student Loan Data System (NSLDS), containing federal loan and grant files; the Central Processing System (CPS), which houses and processes data contained in the Free Application for Federal Student Aid (FAFSA) forms; the National Student Clearinghouse (NSC) which provides enrollment and degree verification; vendors of national undergraduate, graduate, and professional student admission tests; and possible other administrative data sources such as the Veterans Benefits Administration (VBA). These data will be obtained through file matching/downloading. In addition, this request includes conducting panel maintenance activities for the BPS:20/25 field test sample. BPS:20/25 is anticipated but has not yet been authorized. This submission covers BPS:20/22 full-scale materials and procedures required for conducting the student survey and for matching data to administrative records. Along with this full-scale package NCES will provide the Office of Management and Budget (OMB) with a memorandum summarizing changes from the field test for the full-scale data collection. The materials for the BPS:20/22 full-scale study are based upon the field test materials. This submission is designed to adequately justify the need for and overall practical utility of the full study, presenting the overarching plan for all of the phases of the data collection and providing as much detail about the measures to be used as is available at

the time of this submission. As part of the completed field test, NCES published a notice in the **Federal Register** allowing first a 60- and then a 30-day public comment period. Field test materials, procedures, and results have informed this request for clearance for the full-scale study. For this full-scale study NCES will publish a notice in the **Federal Register** allowing an additional 30-day public comment period on the final details of the BPS:20/22 full-scale study.

Dated: December 9, 2021.

Stephanie Valentine,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

Sunshine Act Meetings

TIME AND DATE: December 16, 2021, 10:00 a.m.

PLACE: Open to the public via audio Webcast only. Join FERC online to listen live at <http://ferc.capitolconnection.org/>.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda.

* NOTE—Items listed on the agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION: Kimberly D. Bose, Secretary, Telephone (202) 502–8400.

For a recorded message listing items struck from or added to the meeting, call (202) 502–8627.

This is a list of matters to be considered by the Commission. It does not include a listing of all documents relevant to the items on the agenda. All public documents, however, may be viewed on line at the Commission's website at <https://elibrary.ferc.gov/eLibrary/search> using the eLibrary link.

1085TH MEETING—OPEN MEETING

[December 16, 2021, 10:00 a.m.]

Item No.	Docket No.	Company
ADMINISTRATIVE		
A-1	AD22–1–000	Agency Administrative Matters.
A-2	AD22–2–000	Customer Matters, Reliability, Security and Market Operations.
ELECTRIC		
E-1	RM20–16–000	Managing Transmission Line Ratings.

1085TH MEETING—OPEN MEETING—Continued

[December 16, 2021, 10:00 a.m.]
