F. Eligible U.S. Geological Survey (USGS) Programs

The mission of the USGS is to collect, analyze, and provide information on biology, geology, hydrology, and geography that contributes to the wise management of the Nation's natural resources and to the health, safety, and well-being of the American people. This information is usually publicly available and includes maps, data bases, and descriptions and analyses of the water, plants, animals, energy, and mineral resources, land surface, underlying geologic structure, and dynamic processes of the earth. The USGS does not manage lands or resources. Self-governance Tribes may potentially assist the USGS in the data acquisition and analysis components of its activities.

For questions regarding self-governance, contact Ms. Monique Fordham, Esq., National Tribal Liaison, U.S. Geological Survey, 12201 Sunrise Valley Drive, Reston, Virginia 20192, telephone (703) 648–4437 or fax (703) 648–6683.

G. Eligible Office of the Special Trustee for American Indians (OST) Programs

The Department of the Interior has responsibility for what may be the largest land trust in the world, approximately 56 million acres. OST oversees the management of Indian trust assets, including income generated from leasing and other commercial activities on Indian trust lands, by maintaining, investing and disbursing Indian trust financial assets, and reporting on these transactions. The mission of the OST is to serve Indian communities by fulfilling Indian fiduciary trust responsibilities. This is to be accomplished through the implementation of a Comprehensive Trust Management Plan (CTM) that is designed to improve trust beneficiary services, ownership information, management of trust fund assets, and self-governance activities.

A Tribe operating under self-governance may include the following programs, services, functions, and activities or portions thereof in a funding agreement:

1. Beneficiary Processes Program (Individual Indian Money Accounting Technical Functions).

2. Appraisal Services Program. Tribes/consortia that currently perform these programs under a self-governance funding agreement with the Office of Self-Governance (OSG) may negotiate a separate memorandum of understanding (MOU) with OST that outlines the roles and responsibilities for management of these programs.

The MOU between the Tribe/consortium and OST outlines the roles and responsibilities for the performance of the OST program by the Tribe/consortium. If those roles and responsibilities are already fully articulated in the existing funding agreement with the OSG, an MOU is not necessary. To the extent that the parties desire specific program standards, an MOU will be negotiated between the Tribe/consortium and OST, which will be binding on both parties and attached and incorporated into the OSG funding agreement.

If a Tribe/consortium decides to assume the operation of an OST program, the new funding for performing that program will come from OST program dollars. A Tribe's newly-assumed operation of the OST program(s) will be reflected in the Tribe's OSG funding agreement.

For questions regarding self-governance, contact Mr. Lee Frazier, Program Analyst, Office of External Affairs, Office of the Special Trustee for American Indians (MS 5140–MIB), 1849 C Street NW., Washington, DC 20240–0001, phone: (202) 208–7587, fax: (202) 208–7545.

IV. Programmatic Targets

The programmatic target for Fiscal Year 2016 provides that, upon request of a self-governance Tribe, each non-BIA bureau will negotiate funding agreements for its eligible programs beyond those already negotiated.

Background: In September 2011, President Barack Obama announced the United States' commitment to participate in the Extractive Industries Transparency Initiative. Implementing EITI is a signature initiative of the U.S. National Action Plans for an Open Government Partnership. EITI offers a voluntary framework for companies and governments to publicly disclose in parallel the revenues paid and received for extraction of oil, gas, and minerals. The design of each framework is country-specific and is developed through a multi-year, consensus-based process by a multi-stakeholder group comprised of government, industry, and civil society representatives. President Obama named Secretary of the Interior the U.S. Senior Official responsible for implementing USEITI. The U.S. achieved Candidate Country status on March 14, 2014. USEITI published its First Annual Report on December 16, 2015. For further information on EITI, please visit the USEITI Web page at *http://www.doi.gov/EITI.*

Office of the Assistant Secretary—Indian Affairs; School Facilities Construction List

AGENCY: Office of the Assistant Secretary—Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This notice announces that the Acting Assistant Secretary—Indian Affairs has selected 10 schools as the next set of schools eligible to receive funding to replace their school facilities.

FOR FURTHER INFORMATION CONTACT: Mr. Darrell LaRoche, Director, Office of Facilities, Property, and Safety Management, Office of the Assistant Secretary—Indian Affairs (703) 390–6314, *darrell.laroche@bia.gov.*

SUPPLEMENTARY INFORMATION: The No Child Left Behind (NCLB) School Facilities and Construction Negotiated Rule-Making Committee established the process and criteria for determining the priority in which the Department of the Interior would proceed with campus-wide school replacement. The criteria can be viewed at pages 37–41 of the Committee's Report, available here: *http://www.bia.gov/cs/groups/xraca/documents/document/idc1-025523.pdf.* In accordance with that process, the National Review Committee (NRC) (a committee of educators, facility and safety experts, representative from the Division of Facilities Management and Construction, and the Bureau of Indian Education) established that 78 Bureau of Indian Education funded schools were eligible to apply for replacement in this cycle. Of those 78 schools, 53 schools applied for consideration. The NRC reviewed the schools' applications using criteria identified in the NCLB report, scored each application using objective criteria, ranked them according to their numerical score, and identified the 10 highest scoring projects. Those schools were invited to present at a public hearing to show the condition of their school campuses and to answer questions.

For Fiscal Year (FY) 2016, the National Review Committee identified the 10 schools listed below and invited those schools to a present at a public meeting in February 2016, in Albuquerque, New Mexico. The Acting Assistant Secretary—Indian Affairs has determined that all 10 schools need to be replaced and, therefore, all 10 schools should be eligible for funding, as it becomes available through Congressional appropriations, in this cycle.

- Blackwater Community School
- Chichiltah/Jones Ranch Community School
- Crystal Boarding School
- Dzilth-Na-O-Dith-Hle Community School
- Greasewood Springs Community School
- Laguna Elementary School
- Lukachukai Community School
- Quileute Tribal School
- T'iis Nazbas Community School
- Tonalea (Red Lake) Day School

The selection of these 10 schools is based on criteria, such as the Facility Condition Index, and other measures outlined in the NCLB report. The Office of the Assistant Secretary—Indian Affairs will place these 10 in order of readiness based on when each school completes the planning process. Design and construction for these projects is contingent on the budget process.
