DEPARTMENT OF THE INTERIOR**National Park Service****Negotiated Rulemaking Advisory Committee for Dog Management at Golden Gate National Recreation Area**

AGENCY: National Park Service, Interior.

ACTION: Notice of Intent to Establish a Negotiated Rulemaking Advisory Committee.

SUMMARY: The Secretary of the Interior is giving notice of her intent to establish the Negotiated Rulemaking Advisory Committee for Dog Management at Golden Gate National Recreation Area (GGNR) to negotiate and develop a special regulation (proposed rule) for dog management at Golden Gate National Recreation Area.

FOR FURTHER INFORMATION CONTACT: Brian O'Neill, Superintendent, Golden Gate National Recreation Area, Fort Mason, Building 201, San Francisco, California, 94123; 415-561-4720.

DATES: Interested persons are invited to comment on the proposal to create this Committee. In addition, any persons who believe that they will be affected significantly by the special regulation and who believe their interests will not be represented adequately by the persons identified in this Notice are invited to apply for or nominate another person for membership on the Committee. Each application must contain the information described in the "Application for Membership" section below. Applications or nominations for membership on the Committee must be received by close of business on July 28, 2005.

ADDRESSES: Comments and applications for membership must be submitted to Brian O'Neill, Superintendent, Golden Gate National Recreation Area, Fort Mason, Building 201, San Francisco, California 94123 (Attn: Negotiated Rulemaking Committee). As an alternative, comments and applications may be submitted by electronic mail to GOGA_Reg_Neg@nps.gov. Please Put "Negotiated Rulemaking Committee" in the subject line. Comments and applications received will be available for inspection at the address listed above from 8:30 a.m., to 4:30 p.m., p.s.t., Monday through Friday.

SUPPLEMENTARY INFORMATION: The establishment of this committee is in the public interest and supports the National Park Service (NPS) in performing its duties and responsibilities under the NPS Organic Act, 16 U.S.C. 1 *et seq.*, the Endangered species Act, 16 U.S.C. 1531 *et seq.*; and the Golden Gate National Recreation Area Act, 16 U.S.C. 460bb *et seq.*

The Committee will negotiate to reach consensus on concepts and language to use as the basis for a special regulation for dog management at GGNRA. The NPS's existing regulation, codified at 36 CFR 2.15, has not been effective in resolving longstanding, controversial

resource management and public use conflicts and safety issues at Golden Gate National Recreation Area. With the participation of knowledgeable and affected parties, NPS expects to develop practical approach to resolve conflicts and issues which include: the protection of cultural and natural resources; competing visitor uses; the safety of visitors and staff; and the public desire to walk their dogs off-leash in certain areas of GGNRA.

Scope of the Proposed Rule. Within the constraints of NPS authorities, policies, planning guidelines, and information on park setting, natural and cultural resources, public safety, and context of the unique urban environment within which GGNRA fits, the Committee will address key issues during the negotiations, including, but not limited to: areas of the park that could be designated for off-leash dog walking areas; periods of use and times of day and year during which off-leash areas may be used; use limits and other conditions that would govern off-leash use within GGNRA, including the use and limits of professional dog walking. The following areas of the park, in which pets have never been allowed (i.e., there is not history of dog walking use and/or it has not been an issue) or have been restricted due to sensitivity of resources, are precluded from consideration by the Committee for off-leash uses: Alcatraz; China Beach; Crissy Beach tidal marsh and wildlife protection area as designated by the 1996 Crissy Field Plan Environment Assessment; East Fort Baker Pier; areas closed to visitor and pet access at Fort Funston; Kirby Cove; Muir Woods; Phleger Estate; Fort Point historic structure; the beach at Stinson Beach; Tennessee Valley; Muir Beach Lagoon; Rodeo Lagoon; Rodeo Lake; Redwood Creek; all trails in undeveloped areas; all areas closed to off-trail travel; and all freshwater bodies in the park.

On-leash dog walking could be considered in areas with threatened and endangered species only if it is demonstrated that adverse effects or impacts are minimal and could be mitigated. New NPS lands that come under the management of GGNRA in the future will be evaluated for appropriate recreational uses, including dog walking, and any approved dog walking use will be consistent with the new special regulation for dogwalking in GGNRA.

The legal sideboards within which recommendations on dog management in GGNRA must be formed include, but may not be limited to the following:

- GGNRA enabling legislation (Public Law 92-589)
