

ACTION: Notice of public comment period for the Revised Management Plan for the Delaware National Estuarine Research Reserve.

SUMMARY: Notice is hereby given that the Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce is announcing a thirty day public comment period on the Delaware National Estuarine Research Reserve Management Plan Revision which will begin on the day this announcement is published. Comments should be sent within the comment period in hard copy or e-mail to Cory Riley at Cory.Riley@noaa.gov or NOAA's Estuarine Reserves Division, 1305 East-West Highway, N/ORM5, 10th floor, Silver Spring, MD 20910.

The Delaware National Estuarine Research Reserve was designated in 1993 pursuant to section 315 of the Coastal Zone Management Act of 1972, as amended, 16 U.S.C. 1461. The reserve has been operating under a management plan approved in 1993. Pursuant to 15 CFR 921.33(c), a state must revise its management plan every five years. The submission of this plan fulfills this requirement and sets a course for successful implementation of the goals and objectives of the reserve. Changes in the administrative structure of the reserve, a boundary expansion, new facility and land acquisition plans, and updated programmatic objectives are notable revisions to the 1993 approved management plan.

When the Delaware National Estuarine Research Reserve was designated, it was managed jointly by three divisions within the Delaware Department of Natural Resources and Environmental Control. Since that time, the Division of Soil and Water has become the sole state agency administering reserve activities. The revised management plan outlines the administrative structure; the education, stewardship, and research goals of the reserve; and the plans for future land acquisition and facility development to support reserve operations.

One hundred and forty seven (147) acres adjacent to the Blackbird Creek component site are incorporated through the boundary amendment in the management plan revision. The previous reserve boundary around Blackbird Creek did not include an access point to the estuarine habitat. The expansion adds land that was acquired in fee simple from willing sellers. The new boundary and will provide direct access to the Blackbird

Creek for reserve related research and education programs. These parcels also provide excellent passive recreation and educational opportunities in an area that was previously not accessible to the public. Forested uplands, wetlands and marsh habitat will be protected through this expansion to ensure the Blackbird Creek component is an appropriate site for long term research and education.

SUPPLEMENTARY INFORMATION: Section 483 of the Higher Education Act of 1965, as amended (HEA), requires the Secretary, "in cooperation with agencies and organizations involved in providing student financial assistance," to "produce, distribute and process free of charge a common financial reporting form to be used to determine the need and eligibility of a student under" the Title IV, HEA Programs. This form is the FAFSA. In addition, Section 483 authorizes the Secretary to include non-financial data items that assist States in awarding State student financial assistance.

FSA has awarded a Front-End Business Integration contract that will re-engineer the front-end student aid application processes, disbursement processes, funds management, and customer service functions into a single integrated business solution. The first implementation activities are scheduled for January, 2007. For this reason, we propose to make minimal changes to the 2006-2007 FAFSA, and will consider recommendations for improving the FAFSA and the application process in the 2007-2008 development cycle.

The draft 2006-2007 FAFSA (posted to the IFAP Web site) does not propose to add or to delete data elements. The questions appear in the same format and the same order as in 2005-2006. Several changes to the working on the 2006-2007 FAFSA are proposed as follows: (1) Page 1, "Using Your Tax Return" is revised to note that applicants required to file a tax return must do so to receive student aid. (2) Page 2, Under Notes for Questions 43-45, two lines referring to filing on the Web are deleted. (3) Page 2, The paragraph beginning "Investments include * * *" is revised to direct applicants to a Web site for further guidance. (4) Pages 4 and 5,

Questions 32 and 70, option “c” is revised to indicate that “I (and my parents) will not file and I am not (my parents are not) requires to file.” (5) Page 8, Worksheet B, item 1, adds the word “voluntary” before “contributions to tax-deferred pension and savings plans.” A more detailed summary of changes is posted on the IFAP Web site. The Secretary requests comments on these proposed changes to wording, as well as suggestions for ways to further simplify the application for students, parents, and schools.

The Secretary is publishing this request for comment under the provisions of the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.* Under that Act, ED must obtain the review and approval of the Office of Management and Budget (OMB) before it may use a form to collect information. However, under procedure for obtaining approval from OMB, ED must first obtain public comment of the proposed form, and to obtain that comment, ED must publish this notice in the **Federal Register**.

In addition to comments requested above, to accommodate the requirements of the Paperwork Reduction Act, the Secretary is interested in receiving comments with regard to the following matters: (1) Is this collection necessary to the proper functions of the Department (2) will this information be processed and used in a timely manner, (3) is the estimate of burden accurate, (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
