FOR FURTHER INFORMATION CONTACT: For information on the regulations for the importation of fruit from Thailand into the United States, contact Mr. Andrew Wilds, Trade Director, PPQ, APHIS, 4700 River Road, Unit 140, Riverdale MD 20737; (301) 851-2275. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Importation of fruit from Thailand into the United States.

OMB Number: 0579-0308.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, APHIS regulates the importation of fruits and vegetables into the United States from certain parts of the world as provided in "Subpart—Fruits and Vegetables" (7 CFR 319.56–1 through 319.56–56).

In accordance with § 319.56–47, litchi, longan, mango, mangosteen, pineapple, and rambutan from Thailand may be imported into the United States under certain conditions to prevent the introduction of plant pests into the United States. These conditions involve the use of information collection activities, including production area registration, phytosanitary certificate with an additional declaration statement, and labeling.

Shipments of litchi, longan, mango, mangosteen, pineapple, and rambutan must be accompanied by a phytosanitary certificate with an additional declaration stating that the fruit have been treated with irradiation in Thailand in accordance with the regulations, and in the case of litchi,

that the fruit have been inspected and found to be free of *Peronophythora litchi*. In addition, cartons in which litchi and longans are packed must be stamped to indicate that the fruit must not be imported into or distributed in Florida.

The information collection activities of a phytosanitary certificate and labeling were approved by the Office of Management and Budget (OMB) under control number 0579-0308. However, when comparing the regulations with the information collection activities, we found that the registration of production areas was omitted from previous information collections. This has resulted in a change of the estimated total annual burden from 78 hours to 398 hours.

We are asking OMB to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.41458 hours per response.

Respondents: Importers of fruit from Thailand and the national plant protection organization of Thailand.

Estimated annual number of respondents: 10.

Estimated annual number of responses per respondent: 96.

Estimated annual number of responses: 960.

Estimated total annual burden on respondents: 398 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of January 2013.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Social Capital Survey of Northeast Groundfish (SCSN) Fishery Sector Participants.

OMB Control Number: None.

Form Number(s): NA.

Type of Request: Regular submission (request for a new information collection).

Number of Respondents: 151.

Average Hours per Response: 20 minutes.

Burden Hours: 50.

Needs and Uses: This request is for a new information collection.

Quota allocations to groups of self-selecting permit holders (known as sector allocations) are increasingly being considered as a way to provide fishermen with greater control and flexibility in their fishing businesses while achieving efficiency gains. This new approach, which devolves substantial management responsibilities to groups of fishermen, represents a potential transformation in the relationship among permit holders as well as the relationship between permit holders and fisheries governance structures.

We expect that the success of sectors is likely to be shaped by the strength of the relationships between permit holders including their degree of trust and collaboration. We also expect that successful sectors will build norms and networks that enable collective action over time. The value of these relationships is commonly referred to in social and economic literature.

A baseline of existing social capital in the groundfish fishery in the Northeast Region was conducted in 2010 by the Gulf of Maine Research Institute. This survey, to be conducted twice over the next six years, will follow up on this earlier initiative and will enable researchers to measure the change in the types and strength of relationships

between groundfish permit holders in the Northeast. This work will inform our understanding of how best to design collaborative management structures in support of sustainable fisheries in the region and nationally.

Affected Public: Business or other for-profit organizations.

Frequency: Twice in the next six years.

Respondent's Obligation: Voluntary.

OMB Desk Officer:

OIRA Submission@omb.eop.gov.

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to
