

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket Nos. CP14-347-000, PF13-9-000]****Magnolia LNG, LLC; Notice of Application**

Take notice that on April 30, 2014, Magnolia LNG, LLC (Magnolia), 1001 McKinney, Suite 400, Houston, Texas 77002, filed in Docket No. CP14-347-000, an application pursuant to section 3(a) of the Natural Gas Act (NGA) for authority to construct and operate liquefaction and export facilities located at Magnolia LNG's proposed site near Lake Charles, Louisiana. Specifically, Magnolia proposes to develop a liquefied natural gas (LNG) facility capable of producing approximately 8 metric tonnes per annum (mtpa) of LNG for domestic consumption and export to foreign markets. The project would receive natural gas via a tie-in to an existing interstate pipeline owned by Kinder Morgan Louisiana Pipeline, LLC, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, call (202) 502-8659 or TTY, (202) 208-3676.

Any questions regarding this application should be directed to Ernie Megginson, Vice President, Development, Magnolia LNG, LLC, 1001 McKinney, Suite 400, Houston, TX 77002, by phone: (713) 815-6900, by fax: (713) 815-6905 or email: emegginson@magnoliainlg.com.

On March 20, 2013, the Commission staff granted the Magnolia's request to utilize the Pre-Filing Process and assigned Docket No. PF13-9-000 to staff activities involved the Magnolia LNG Project. Now as of filing the April 30, 2014 application, the Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP14-347-000, as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's rules, 18 CFR § 157.9, within 90 days of this Notice, the Commission staff will issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact

statement (FEIS) for this proposal. The issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties.

However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Comment Date: 5:00 p.m. Eastern Time on June 3, 2014.

Dated: May 13, 2014.

Secretary.
