

(P.L. 104–134 Section 31001(x) of 31 U.S.C. 7701, requires that agencies collect tax identification numbers from all persons doing business with the Government for purposes of collecting delinquent debts. The services of an inspector to clear imported and exported commodities are covered by user fees during regular working hours. If an importer/exporter wishes to have a shipment of cargo or animals cleared at other hours, such services will usually be provided on a reimbursable overtime basis, unless already covered by a user fee. The Animal and Plant Health Inspection Service (APHIS) will collect information using APHIS form 192, Application for Credit Account and Request for Service.

Need and Use of the Information: APHIS will collect information to conduct a credit check on prospective applicants to ensure creditworthiness prior to extending credit services. Without this information, customers (including small business) will have to pay each time a service is provided.

Description of Respondents: Business or other for-profit; Individuals or households; Not-for-profit institutions; Federal Government.

Number of Respondents: 256.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 64.

Animal Plant & Health Inspection Service

Title: Pseudorabies in Swine; Payment to Indemnity.

OMB Control Number: 0579–0137.

Summary of Collection: The United States Department of Agriculture is responsible for preventing the interstate spread of pests and diseases of livestock within the United States and for conducting eradication programs. The Animal and Plant Health Inspection Service (APHIS) established an accelerated pseudorabies program, including the payment of indemnity, to further pseudorabies eradication efforts in cooperation with States and industry and to protect swine not infected with pseudorabies from the disease.

Pseudorabies is a contagious, infectious, and communicable disease of livestock, primarily swine. Regulations in 9 CFR part 85 govern the interstate movement of swine and other livestock (cattle, sheep, and goats) in order to help prevent the spread of pseudorabies. APHIS will collect information using several APHIS forms.

Need and Use of the Information: APHIS will collect information on the number of animals being relinquished, their estimated weight, the market price of the animals for the particular week,

and the total compensation amount that the owner can expect to receive. If the information were not collected, APHIS would not be able to launch the accelerated pseudorabies eradication program.

Description of Respondents: Business or other for-profit; Farms; State, Local or Tribal Government.

Number of Respondents: 5,700.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 3,156.

Agricultural Marketing Service

Title: Lamb Promotion, Research and Information Program.

OMB Control Number: 0581-0198.

Summary of Collection: The authority for Lamb Promotion, Research, and Information Order is established under the Commodity Promotion, Research, and Information Act of 1996. These programs carry out projects relating to research, consumer information, advertising, producer information, market development, and product research with the goal of maintaining and expanding their existing markets and uses and strengthening their position in the marketplace.

Need and Use of the Information: Various forms will be used to collect information for reporting, background, certification, remittance and nomination and is the minimum information necessary to effectively carry out the requirements of the program. The information is not available from other sources because it relates specifically to individual lamb producers, feeders,

seedstock producers, exporters and first handlers.

Description of Respondents: Farms; Individuals or households; Business or other for-profit.

Number of Respondents: 67,486.

Frequency of Responses:

Recordkeeping; Reporting: Monthly.

Total Burden Hours: 25,118.

Agricultural Marketing Service

Title: Vegetable and Specialty Crops.

OMB Control Number: 0581-0178.

Summary of Collection: The

Agricultural Marketing Agreement Act of 1937 was designed to permit regulation of certain agricultural commodities for the purpose of providing orderly marketing conditions in interstate commerce and improving returns to growers. The Orders and Agreements become effective only after public hearings are held. The marketing order programs provide an opportunity for producers of fresh fruit, vegetables, and specialty crops, in specified production areas to work together to solve marketing problems that cannot be solved individually.

Need and Use of the Information:

Various forms are used to collect information necessary to effectively carry out the requirements of the Act and the Order/Agreement. Information collected is used to formulate market policy, track current inventory and statistical data for market development programs, ensure compliance, and verify eligibility, monitor and record grower's information. If information were not collected, it would eliminate data needed to keep the industry and the Secretary abreast of changes at the State and local level.

Description of Respondents: Business or other for profit; Farms; Federal Government; Individuals or households; Not-for-profit institutions.

Number of Respondents: 25,121.

Frequency of Responses: Reporting:

On occasion, Quarterly, Biennially, Weekly, Semi-annually, Monthly, Annually and Recordkeeping.

Total Burden Hours: 15,107.

Agricultural Marketing Service

Title: Customer Service Survey for USDA—Donated Food Products.

OMB Control Number: 0581-0182.

Summary of Collection: Each year the Agricultural Marketing Service (AMS) procures about \$700 million dollars of poultry, livestock, fruit, and vegetable products for the school lunch and other domestic feeding programs under authority of 7 CFR 250, Regulations for the Donation of Food for Use in the United States, its territories and possessions and areas under its

jurisdiction. To maintain and improve the quality of these products, AMS has sought to make this process more customer-driven and therefore is seeking opinions from the users of these products. AMS will use AMS-11, "Customer Opinion Postcard," to collect information. Customers that use USDA-procured commodities to prepare and serve meals retrieve these cards from the boxes and use them to rate their perception of product flavor, texture, and appearance as well as overall satisfaction.

Need and Use of the Information:

AMS will collect information on the product type, production lot, and identify the location and type of facility in which the product was served. USDA program managers will use survey responses to maintain and improve product quality through the revision of USDA commodity specifications and follow-up action with producers of designated production lots.

Description of Respondents: State, Local or Tribal Government; Not-for-profit institutions.

Number of Respondents: 8,400.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 700.
