DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Finding of No Significant Impact and Final Environmental Assessment for the Management of Mute Swans in the Atlantic Flyway

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service) has prepared a Finding of No Significant Impact (FONSI) and a Final Environmental Assessment (FEA) for the management of mute swans (*Cygnus olor*) in the Atlantic Flyway. The specific Service action under the preferred alternative of integrated population management will be the issuance of migratory bird depredation permits authorizing the take of up to 3,100 mute swans annually. The Service can also issue depredation permits that authorize egg addling, pinioning (*i.e.*, amputation of the outer wing, a commonly used method of flight restraint in waterfowl) and sterilization, and live-trapping and relocation.

ADDRESSES: The Record of Decision—including FONSI, FEA, and related documents—will be available for public inspection, by appointment, during normal business hours at the following location: U.S. Fish and Wildlife Service, Division of Migratory Bird Management, 4501 North Fairfax Drive, Room 4000, Arlington, Virginia. These documents can also be viewed on the Service's Web site at <http://migratorybirds.fws.gov>.

FOR FURTHER INFORMATION CONTACT: John L. Trapp, (703) 358-1965.

SUPPLEMENTARY INFORMATION:

Description of Action

The EA on which the FONSI is based was made available to the public on July 2, 2003 (68 FR 39593) for a 15-day public comment period. We received comments from 13 State wildlife agencies, 53 organizations, and approximately 2,620 individuals. The Service's preferred alternative was supported by 13 State wildlife agencies; 43 organizations dedicated to bird conservation or science, wildlife conservation, and wildlife management; and 24 individuals. The Service's proposed action was opposed by 10 animal-rights organizations and at least 2,589 individuals who believe that lethal take (*i.e.*, shooting) is inhumane and that the proposed action is not supported by the available scientific evidence. More than 95 percent of the individual responses were prompted by Web-based action-alert form letters.

The specific action to be undertaken by the Service will be the issuance of migratory bird depredation permits to State wildlife agencies, the Wildlife Services program of the U.S. Department of Agriculture's Animal and Plant Health Inspection Service, national wildlife refuges, and others to take mute swans in the Atlantic Flyway, in accordance with 50 CFR 21.41 and the State-specific take guidelines presented in the FEA, to allow for the
