Defense Federal Acquisition Regulation Supplement: Updated Descriptions of Product Service Groups Subject to Trade Agreements (DFARS Case 2015-D004)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to update the descriptions of Federal supply groups (now identified as product service groups) subject to trade agreements to conform to the current Federal Procurement Data System Product and Service Codes Manual.

DATES: Effective January 29, 2015.

FOR FURTHER INFORMATION CONTACT: Ms. Amy G. Williams, telephone 571-372-6106.

SUPPLEMENTARY INFORMATION:

I. Background

This final rule amends DFARS 225.401-70 to update the descriptions of the Federal supply groups, now identified as product service groups (PSGs), to conform to the Federal Procurement Data System Product and Service Codes Manual, August 2011 Edition. DFARS 225.401-70 lists end products that are subject to trade agreements when acquired by DoD. There are no changes to the groups covered; however, a number of the PSG descriptions are updated in order to better reflect product coverage. The World Trade Organization Government Procurement Agreement, Free Trade Agreement, and other designated countries will continue to have guaranteed access to the goods committed under U.S. international agreements. The revised descriptions more clearly include some new items that were not previously mentioned in the descriptions, even though included in the product service group.

II. Publication of This Final Rule for Public Comment Is Not Required by Statute

“Publication of proposed regulations”, 41 U.S.C. 1707, is the statute which applies to the publication of the Federal Acquisition Regulation. Paragraph (a)(1) of the statute requires that a procurement policy, regulation, procedure or form (including an amendment or modification thereof) must be published for public comment if it relates to the expenditure of appropriated funds, and has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure or form, or has a significant cost or administrative impact on contractors or offerors. This final rule is not required to be published for public comment, because it does not change the Federal supply groups covered, but just updates the descriptions of the listed product service groups to reflect the current Product and Service Codes Manual. It does not impact which products are subject to trade agreements.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic,

environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

The Regulatory Flexibility Act does not apply to this rule because this final rule does not constitute a significant DFARS revision within the meaning of FAR 1.501-1, and 41 U.S.C. 1707 does not require publication for public comment.

V. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

Defense Federal Acquisition Regulation Supplement: Electronic Submission of Technical Reports (DFARS Case 2014–D001)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to require that scientific and technical reports be submitted in electronic format.

DATES: Effective January 29, 2015.

FOR FURTHER INFORMATION CONTACT: Veronica Fallon, telephone 571–372–6098.

SUPPLEMENTARY INFORMATION:

I. Background

DoD published a proposed rule in the **Federal Register** at 79 FR 51293 on August 28, 2014, to require submission of scientific and technical reports online in electronic media to the Defense Technical Information Center.

II. Discussion and Analysis

There were no public comments submitted in response to the proposed rule. No changes were made to the proposed rule.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

A final regulatory flexibility analysis has been prepared consistent with the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, and is summarized as follows:

This rule amends the Defense Federal Acquisition Regulation Supplement (DFARS) to require electronic submission of scientific and technical reports (vice paper). Electronic submission of the report is required by DoD Instruction 3200.12, DoD Scientific and Technical Information Program. The rule revises DFARS clause 252.235–7011, Final Scientific or Technical Report, by requiring the contractor to submit an electronic copy of the approved final scientific or technical report. This change will lend efficiency to the submission process by no longer

requiring the electronically initiated report to be printed for submission. It will also allow the report to be submitted in the same format as it was created, thereby streamlining and modernizing the report submission process.

No public comments were submitted in response to the initial regulatory flexibility analysis.

According to the Federal Procurement Data System, in fiscal year 2013 DoD made approximately 469,593 contract awards to small businesses, of which approximately 4,143 (less than one percent), were awarded as research, development, test and evaluation contracts. DoD does not expect this rule to have a significant economic impact on a substantial number of small entities because it is not revising any report submission requirements, it is only modernizing the submission process.

This rule does not impose any new reporting requirements. This rule does not impose any new requirements on small entities, and since the rule only changes the mode of submission of the reports from paper to electronic means, this change is expected to have only a negligible impact on small entities.

V. Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C chapter 35) does apply; however, these changes to the DFARS do not impose additional information collection requirements to the paperwork burden previously approved under OMB Control Number 0704–0188, entitled ASSIST Database, which expires on August 31, 2016.
