Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On June 2, 2022, the Texas Commission on Environmental Quality (TCEQ) submitted an application titled National Pollutant Discharge Elimination System (NPDES) Electronic Reporting Tool (NeT) for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed TCEQ's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve TCEQ's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR is being published in the **Federal Register**:

Part 123: EPA-Administered Permit Programs: the National Pollutant Discharge Elimination System (NPDES) Reporting under 40 CFR 122 and 125

Part 403: General Pretreatment Regulations for Existing and New Sources of Pollution Reporting under 40 CFR 403

Part 501: State Sludge Management Program Regulations Reporting under 40 CFR 503

TCEQ was notified of EPA's determination to approve its application with respect to the authorized programs listed above.
