II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change, as amended, and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

⁵ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

In order to control trading costs for low-priced stocks, Nasdaq proposes to establish, retroactive to July 1, 2002, a maximum SuperSoes execution fee of \$75.00 per trade and liquidity provider rebate cap of \$37.50 per trade for securities trading at \$1.00 or less per share.

Nasdaq assessed on parties entering orders into SuperSoes a \$0.002 per share charge for all resulting full or partial trade executions. This fee applied regardless of the price of the individual security traded and there was no maximum fee per individual trade. Nasdaq also rebated \$0.001 per share to market participants that provided liquidity to the market by having their quotes accessed by SuperSoes orders, when those quoting market participants did not themselves charge a separate fee for that access. When a market participant entered an order into SuperSoes that interacted with the quote of an access fee-charging Electronic Communications Network ("ECN"), Nasdaq likewise rebated \$0.001 per share to that entering party. Like the per-share SuperSoes execution fee, these rebates had no maximum dollar amount.

Nasdaq represents that market activity caused the prices of many Nasdaq securities to fluctuate, and in some cases lose significant value. As the prices of these securities declined, market participants generally needed to purchase or sell an increasing number of total shares to actively participate in the market for these issues. This increase in the size of individual transactions, when combined with SuperSoes' unlimited per share fee structure, raised execution costs to market participants. Similarly, large transactions involving low-priced securities also can result in disproportionate liquidity-provider rebates.

In response, Nasdaq has determined to establish per trade maximums for SuperSoes execution fees and liquidity provider rebates in low-priced (\$1.00 or less per share) securities. Under the proposal, Nasdaq would cap at \$75 the maximum execution fee it would impose on the entering party for a single SuperSoes trade where the price of the security traded was one dollar or less. For rebates, Nasdaq would cap at \$37.50 the amount it gives back to market participants for providing liquidity in low-priced securities or when their orders access the low-priced quotes of

fee-charging ECNs. Nasdaq notes that the ratio between its low-priced maximum per trade fee and per trade rebate is the same as those that are applicable to higher-priced issues.

2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with the provisions of section 15A of the Act,⁸ in general, and with section 15A(b)(5) of the Act,⁹ in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers, and other persons using any facility or system which the association operates or controls.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change, as amended, will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the NASD consents, the Commission will:

(A) By order approve such proposed rule change; or

(B) Institute proceedings to determine whether the proposed rule change, as amended, should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed

rule change that are filed with the Commission, and all written communications relating to the proposed rule change, as amended, between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filings will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to File No. SR-NASD-2002-107 and should be submitted by April 9, 2003.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁰
